96-7051 – Domestic with priority date of 1970, field exam conducted in 1975. (No map in field exam.) Spring for this right is in wrong Section per the permit holders. The POD is on David Pucci's property (RP56N01W163100A – 6175 Sagel Rd.) in 56N01W16 NWNW. See letter received 06/27//2016. Permit holders also indicated that POU of 96-7051 is approximately 2000 ft South of permit POU. There is a taxlot approximately 2000 ft southeast of David Pucci's property in the name of the Jack Pierce Living Trust (RP56N01W161600A - 7435 SAGLE RD) with a year built date of 1974. This is consistent with the permit holder's map and information in the water right backfile of 96-7051 including the late proof provided.

96-9040 – Domestic for home at 307 Sky Meadow Rd (PIN = RP56N01W096800A). To East of POUs of 96-9562.

C. DIVERSION AND DELIVERY SYSTEM**1. LOCATION OF POINT(S) OF DIVERSION:**

Source	Govt. Lot	¼	¼	¼	Sec.	Twp.	Rge.		County
Spring		NW	NW	NW	9	59N	01W	B.M.	Bonner

Method of Determination: Application Information and information provided by permit holders to Dan Nelson (email dated 06/17/2016) and via letter (received 06/27/2016).

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{\hspace{2cm}}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 = \underline{\hspace{2cm}}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{\hspace{2cm}}$$

2. Volume Calculations for Other Uses:

Pre field examiners handbook, domestic use plus ½ acre irr. per home = 1.2 afa or domestic use, internal only = 0.6 afa. External irrigation included: 3 homes * 1.2 afa = 3.6 afa.

Check diversion rate: 0.08 cfs * 1.9835 * 365 days = 57.9 afa. Diversion rate sufficient.
License recommend for 3.6 afa domestic.

Subject: 96-9562 Permit

Danielle,

I just spoke with the Pucci's concerning permit 96-9562. They will send me a letter concerning this permit. Once we receive the letter we can move forward.

They told me that the point of diversion (Spring) for 95-7051 is south of the David Pucci property, but that the actual place of use is over ½ miles south of the property. They can't get the spring below their property up gradient to their houses. Their spring is 6,000 plus feet north of the 3 properties.

They also told me that the Eugene Pucci property is stubbed into the system. They have used the water stub for a recreational vehicle in the past, and plan to build the home this year. I do feel this fits into the stub in rule for multiple ownership in Licensing Administrative Memorandum #18 (Page 6 – last paragraph). The lots are under separate ownership, so it would be similar to a subdivision.

Please include this email with the file. If you don't receive the letter from them in 14 days, proceed with processing using this letter as confirmation of what they did.

Thank you.
