PROOF DEFICIENCY LETTER

RE: Permit Nos. 63-34127 & 63-34128

Dear Permit Holder(s):

The Department received the proof of beneficial use (proof) forms submitted for the above referenced permits. The proofs are not acceptable without the required fees. Copies of the forms are enclosed for your reference, along with a license examination fee schedule.

Permit no. **63-34127** authorizes a diversion volume of 0.8 af (acre feet) from surface water requiring a license examination fee of \$50.00. Permit no. **63-34128** authorizes a diversion rate of 0.05 cfs (cubic feet per second) from surface water requiring a license examination fee of \$50.00.

After reviewing your proof forms against your water right permits I noticed that both permits were just issued on June 29, 2016. The proof forms are only to be submitted after you have completed the water projects and have already put the water to full beneficial use.

If your intention was to file both proof statements showing that the water use applied for has been put to full beneficial use, please submit the required total fee of \$100.00 at your earliest convenience.

If you have not fully completed the development of your water projects and put the water to full beneficial use, you still have until the proof due date of July 01, 2021 to do so. If you have any questions concerning this matter, or if your development is not complete and I need to return your original proof forms please contact me at (208) 287-4945.

Sincerely,

Darla Block
