To Whom It May Concern

The beneficial use for this irrigation right has been used to water trees on the property since the Water Right License has been issued every year from 1987 to 2015. The well is Artesian flowing so gravity lines and flood irrigation was how the trees were watered.

Knowing that the property would eventually be sold for retirement funds, as few permanent lines as possible were used, not knowing what the next owner would do with the property.

I have cleaned up and maintained the property a minimum of twice a year, spring and fall to the present time.

You will find a map enclosed of the property which shows 39,600 square feet of trees which are being watered from the Artesian Well as a beneficial use.

Sincerely,
