WATER RIGHT NO. 2-7109

As Modified by Transfer No. 80024

CONDITIONS OF APPROVAL

1. This right is limited to the irrigation of 1,050.0 acres within the authorized place of use in a single irrigation season.

2. Rights 2-7109, 63-2631A, 63-2631C, 63-2632A, 63-2632C, 63-2712, 63-2955, and 63-3099 when combined shall not exceed a total irrigation of 1,254 acres.

3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.

4. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/1 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 3/15 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than 10/21/2009.

5. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.

6. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

7. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

8. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 8/26/2014.

CONDITIONS OF APPROVAL

1. Commercial use of the water is for a diary located in the SWNW, S26 and the NENE, S27, T01S R02W.

2. The water used for commercial purposes under this right may be applied to, and irrigate land listed in, the place of use to satisfy water quality requirements. Water shall not irrigate growing plants unless the water is first beneficially used in the dairy as authorized by this water right.

3. Ground water diverted under rights 63-2712, 63-2955, and 63-3099 is the sole source of irrigation water for five (5) acres within the permissible place of use approved by Transfer No. 80024. Ground water delivered to the remainder of the place of use supplements surface water irrigation.

4. Diversion from the well located in the SENW S15, T01S R02W, is limited to 2.00 cfs (900 gpm) and 157 acre feet annually.

5. Rights 63-2712, 63-2955 and 63-7814 when combined for dairy use shall not exceed a total diversion rate of 1.06 cfs, and/or a combined total annual volume for both stockwater and commercial use of 134 acre-feet. Because the annual volume for both stockwater and commercial use was reduced from the quantities sought by the application for transfer (Transfer 5356), the permit holder must determine the division of the 134 acre-feet into stockwater and commercial components.

6. This right is limited to the irrigation of 380 acres within the authorized place of use in a single irrigation season.

7. Rights 63-2712, 63-2955 and 63-3099 when combined for irrigation purposes shall not exceed a total combined diversion rate of 9.76 cfs, a total combined annual diversion volume of 2029.5 af at the field headgate, and the irrigation of 451 acres.

8. Rights 2-7109, 63-2631A, 63-2631C, 63-2632A, 63-2632C, 63-2712, 63-2955, and 63-3099 when combined shall not exceed a total irrigation of 1,254 acres.

9. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the lands above.

10. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department as part of the diverting works,including if determined necessary by the Department, a separate measuring device and lockable controlling works for measurement and control of water delivered to the dairy.

WATER RIGHT NO. 63-2712

As Modified by Transfer No. 80024

CONDITIONS OF APPROVAL

11. If the surface water right(s) appurtenant to the place of use for this right is unavailable for any reason other than drought or curtailment by priority (for example abandoned, forfeited, sold, transferred, leased, used on another place of use, or disallowed by court decree), the right holder shall not divert ground water for irrigation purposes on the land with appurtenant surface water rights without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.

12. The right holder shall annually report diversions of water under this right to the department.

13. The issuance of this right does not grant any right-of-way or easement across the land of another.

14. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

15. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

16. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 8/26/2014.

7. Rights 63-2712, 63-2955 and 63-3099 when combined for irrigation purposes shall not exceed a total combined diversion rate of 9.76 cfs, a total combined annual diversion volume of 2029.5 af at the field headgate, and the irrigation of 451 acres.

8. Rights 2-7109, 63-2631A, 63-2631C, 63-2632A, 63-2632C, 63-2712, 63-2955, and 63-3099 when combined shall not exceed a total irrigation of 1,254 acres.

9. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the lands above.

10. The right holder shall maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works, including if determined necessary by the department, a separate measuring device and lockable controlling works for measurement and control of water delivered to the dairy.

WATER RIGHT NO. 63-2955

As Modified by Transfer No. 80024

CONDITIONS OF APPROVAL

11. If the surface water right(s) appurtenant to the place of use for this right is unavailable for any reason other than drought or curtailment by priority (for example abandoned, forfeited, sold, transferred, leased, used on another place of use, or disallowed by court decree), the right holder shall not divert ground water for irrigation purposes on the land with appurtenant surface water rights without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.

12. The right holder shall annually report diversions of water under this right to the department.

13. The issuance of this right does not grant any right-of-way or easement across the land of another.

14. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

15. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

16. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 8/26/2014.

Transfer Approval Notice

Dear Water Right Holder <and other Interested Persons>:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a $100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208)334-2190.

Sincerely,

Rachel Neely for:

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a **"Preliminary Order"** issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Transfer No. 80024
FROM: Patrick Kelly
DATE: June 30, 2016
RE: Evaluation of Application

Transfer 80024 proposes to change the place of use of irrigation water rights 2-7109, 63-2712, 63-2955, 63-2631A, 63-2631C, 63-2632A, 63-2632C and 63-3099 owned by Kasper Land & Cattle LLC into a common PPU. The irrigation portions of these rights would then reflect an integrated system from Snake River, ground water and Jensen Lake. Kasper Land & Cattle LLC is located along the north shore of the Snake River in Canyon County, immediately east of Walters Ferry Bridge and State Hwy 45.

Representative of the application is Lori Graves of SPF Water Engineering LLC at 300 E Mallad Dr, Suite 350, Boise, ID 83706, (208) 383-4140, lgraves@spfwater.com.

Summary of Information Submitted

Authority to File: The transfer application was signed by a Tom Kasper. IDSOS records indicate that a Thomas J Kasper is a Registered Agent and manager for Kasper Land & Cattle LLC, registration #W30743.

Water Right Validity: Water rights 63-2631A, 63-2631C, 63-2632A and 63-2632C were decreed in 2010 and are not subject to forfeiture. Water rights 2-7109, 63-2712, 63-2955 and 63-3099 were decreed in 2009 and are subject to validation. An application for extension of time to avoid forfeiture was received November 12, 2015 for these rights. They were advertised without protest and approval is pending for an additional 5 years to resume/establish beneficial use.

Injury to Other Water Rights: Injury is not anticipated since the transfer does not propose to change place of use away from where rights are not already in place. The transfer proposes to reflect in right what beneficial use is being applied to on land.

Enlargement of Use: Source or point of diversion changes are not proposed in the transfer. Combined use limits on the decree limit pertinent water rights to 1,894.0 acres. There are concerns that this limit creates an enlargement. The limits on the decrees are being reduced to match the 1,254 acre limit found in the overlap review submitted by the representative based on the fact that 1,894 acres are unattainable within the POU legal description. See the discussion section for more on this topic.

Local Public Interest: Review staff has no information to suggest this application is inconsistent with the local public interest.

Beneficial Use/Conservation of Water Resources: The application proposes beneficial use consistent with conservation of water resources in Idaho.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Additional Information Request

The original transfer application Page 3A describes a PPU of 1,893 acres. Combined use limits reveal a total limit of 1,894 acres for all of the appurtenant water rights. A request was made to Representative Lori Graves to add an acre to the appropriate QQ. An amended page 3A was received to add an acre to the SESE, Section 22.

**** The amended application was requested at a time when the 1,894 acre PPU was being recommended, and no longer applies. Since the amendment was received, we will move forward with the 1,894 acre PPU.****

A lien holder letter from RABO Agrifinance Inc was received with the original transfer application. Backfile of water rights finds that these irrigation rights also had a notice of interest submitted from Wells Fargo NA in 2011, set to expire 12/31/2016. Some of these rights had the lien holder identified on the contacts list, some did not. Those that did not were added, and the information was forwarded to the Representative to collect the appropriate documentation.

Discussion

Transfer 80024 proposes to change the place of use of 8 irrigation water rights owned by Kasper Land & Cattle LLC into a common PPU. The irrigation portions of these rights would then reflect an integrated system from Snake River, ground water and storage sources. Stockwater and commercial uses exist on some of these rights, but changes to these uses are not included in the transfer application.

Combined use limits for Kasper Cattle rights pre transfer			
Water Rights	Diversion rate	Volume	Acres
2-7109, 63-2712, 63-2955, 63-2631A, 63-2632A, 63-3099			1729
63-2712, 63-2955, 63-3099	9.76	2029.5	451
63-2631C, 63-2632C			165
TOTAL ACRES (1729+165)			1894

An overlap analysis was submitted by the Representative with the transfer application. It was completed reviewing total acres irrigated on paper within each quarter-quarter. The total acre overlap in the analysis is 1,254 acres. This appears to be a more accurate since at the time of my review using aerial photography and ArcMap tools measures a total irrigation of 1,066.4 acres. My overlap review finds all eight rights combined carry a limit of 1,894 acres based on acre limits on rights and conditions of approval. See the Enlargement of Use section of this memo and correspondence from Craig Saxton attached regarding combined use limits. Any potential error made during the adjudication process is not easily fixed in a transfer process since the rights are currently protected from forfeiture. Additionally, a department error sides in the favor of the water right owner. However, when we consider the combined use limits on a quarter-quarter basis, the only way to sum 1,894 acres is by counting 40 acres in multiples for a single quarter-quarter. This limit essentially recognizes acres that simply do not exist. For this reason, it seems logical to move forward with a combined use limit in a manner that limits the maximum amount of acres on a per quarter-quarter basis rather than maintaining such an error. This analysis then matches the 1254 acre overlap review that was provided by the representative.

Water rights 63-2631A & 63-2632A had a combined use limit of 324 acres in the database meaning there would be an overlap of 2 acres. However the decree carries no such limitations nor do the POU sections overlap. No combined use actually exists between the two rights.

Forfeiture concerns were expressed to the applicant and extensions to avoid forfeiture were then made prior to the end of the 2015 calendar year.

There are no other overlapping irrigation rights concerning Kasper Cattle property. POD overlap review finds stockwater and commercial rights diverted from the same wells or surface diversions - all owned by Kasper Cattle.

2-7109 had a stockwater POU "same as irrigation" designation. The use did not have a shape associated with it prior to transfer processing. Since the transfer purpose is to create a PPU for irrigation use only, a stockwater shape was created using the pre-transfer irrigation shape.

Attachment 7B of the transfer application describes the proposed PPU in the form of a map. The PPU shape was drawn to reflect this map. The PPU shape is not a direct reflection of the acres authorized within each QQ, but is a close representation of the irrigation authorized based on information provided in the transfer application.

Kasper Cattle rights were decreed in 2009 & 2010 and migrated from adjudication to water rights prior to the processing of transfer 80024. No further action is required.

Water Supply Bank lease/rentals were not found to be associated with Kasper Cattle properties.

Summary

Assuming protests are not filed and/or other information does not contradict the above analysis, the application can be approved as reflected by the draft approval.

NOTICE OF PROPOSED CHANGE OF WATER RIGHT TRANSFER NO. 80024

KASPER LAND & CATTLE LLC, 3349 HILL RD, MELBA, ID 83641; has filed Application No. 80024 for changes to the following water rights within CANYON County(s): Right No(s). 2-7109, 63-2631A, 63-2631C, 63-2632A, 63-2632C, 63-2712, 63-2955, 63-3099; to see a full description of these rights and the proposed transfer, please see www.idwr.idaho.gov/apps/wr/QueryNewTransfers/QueryNewTransfers.aspx. Transfer 80024 proposes to change the place of use of irrigation water rights owned by Kasper Land & Cattle LLC into a common PPU. The irrigation portions of these rights would then reflect an integrated system from Snake River, ground water and Jensen Lake. Kasper Land & Cattle LLC is located along the north shore of the Snake River in Canyon County, immediately east of Walters Ferry Bridge and State Hwy 45.

For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the right(s) or proposed transfer(s), please see www.idwr.idaho.gov/WaterManagement/WaterRights. Protests may be submitted based on the criteria of Idaho Code § 42-222. Any protest against the proposed change(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of $25.00 for each application on or before 5/23/2016. The protestant must also send a copy of the protest to the applicant.
