We are submitting all of these documents to you at one time to simultaneously process. In terms of timing, we request that the assignment be processed first to vest ownership of the permits in the name of 3D Water Association, Inc., which will then provide a legal basis for their signatures on the remaining documents. This has been a somewhat extended process to get all the documents executed and prepared, and we very much appreciate the Department's assistance and patience in that regard. If you have any question or concerns, please let me know.

Best Regards,
