DEPARTMENT OF
WATER RESOURCES

Dear Madam or Sirs

I tried to call you + apparently the number was too old as I was unable to get through. 2 things:

① I was able to get to your website on a library computer in town (I get less than an hour a month so this is not usually doable) and saw you had online forms for a domestic surface water claim. Am I correct in thinking then, that you do still ~~have~~ do domestic water right claims on a creek on the owner's land? I have nothing definite in mind, only that I may have to move and look for another place of wildland to live on and when I do, it will be off-grid and deep woods.

② In rereading the materials sent to me w/my (192?) water right claim here on my land - physical 1501 Park Road — I noticed it said to inform you of address changes. I don't know if I ever did that. There was only one change. I believe I was at 605 ^{NW} Fisk St. #3 in Pullman, Wa. 99163 when I bought this land and did the water right. Since I moved out here full time a few years after that, I've been at PO Box 217 Deary. (were beyond the USPS mail routes).

Thank you. I hope to hear from you asap, as it very much affects my planning, in land-hunting.
Kam Schunker 7-20-16

Ms. Karen Schumaker
