RE: Change of Ownership for Water Rights 21-7564 (Split into 21-7564, 21-13205 & 21-13206)

Dear Water Right Holder:

The department acknowledges receipt of correspondence changing ownership and splitting the above referenced water right. The department has modified its records to reflect the changes and has enclosed computer-generated reports for your records.

Your portion of the water right has a specified point of diversion, nature of use and place of use. If you plan on changing any of these, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. If you do not plan on changing any items on your water right, then no further action is required at this time.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been deliberately abandoned or forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Jonie Barg

Re: Multiple Notices of Change of Water Right Ownership Regarding Water Right Nos. 21-7564 and 21-7050

Dear Jonie:

As you know I've been working on partitioning some of Crapo's farm entities for estate planning purposes. Just lately we partitioned the farmland owned by BRG Ltd. across 4 separate entities: Unit 1 LLC, Unit 2 LLC, Juniper View LLC, and Crapo Cattle Enterprises LLC. Of these only the first three will retain water rights - Crapo Cattle will only own land for grazing purposes. (Please note: it is still not decided what BRG Ltd. will do with its Water Right 21-7046 for which we have filed for an Extension to Avoid Forfeiture.)

Concerning Water Right 21-7564, we are providing a spreadsheet which is an estimate for how the irrigated land was proportionately split as per the Shapefile and Water Right Report found on the IDWR website. This should give you an idea of how you would move forward with fine-tuning the split amounts per the deeded land (see deeds attached).

Also concerning Water Right 21-7564, you'll see on the map I've provided that Juniper View LLC has two PODs which service each of its pivots. Unit 2 LLC has one POD for its eastern pivot; however, Unit 2 LLCs' western pivot receives water from Juniper View LLCs' northern-most POD (this is what the arrow indicates). I'm including a copy of a Joint Use Agreement between the two companies, which confirms this understanding between the entities.

Regarding Water Right 21-7050, this is an undivided Water Right, which is conveyed to Unit 1 LLC.

As we're splitting the one right and simply conveying the other, please see enclosed check for \$125.

If you have any questions, please don't hesitate to call me at 917 923 0009. If I'm unavailable, Rob Harris is also familiar with this application.

Sincerely,

Lance Crapo
