Application for Permit No. 65-23657

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the STAR NEWS on 7/21/2016 and 7/28/2016. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Re: Application for Permit No. 65-23657 Additional Information Required

Dear Applicant:

Your recent application for permit proposing the use of water for irrigation is being processed. The application has been assigned a priority date but cannot be processed further until the following items are clarified:

- **4 - Proposed Use**

The individual rate does not match the total quantity to be appropriated. Section 4 needs to be amended to reflect the total quantity listed in section 5. The total quantity must be equal to either each individual use added together or equal to the largest rate of one of the individual uses listed in section 4. The standard rate for irrigating less than 5 acres is 0.03 cfs per acre, for the irrigation of 4 acres the maximum approvable rate would be 0.12 cfs.

- **9 - Other Water Rights**

The proposed place of use and points of diversion are located within the service area of Roseberry Irrigation District. Please indicate in section 9 of the application if you have any surface water shares with this company.

Please submit the requested information within thirty (30) days for application processing to continue. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. A permit will not be approved and the application will become void if this department does not receive a written response to this letter within thirty (30) days. Refunds are not issued for voided applications.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you need more information. Thank you for your attention to these matters.

Sincerely,

Phill Hummer
