RE: DENIAL OF APPLICATION TO LEASE WATER RIGHT NO. 2-10426 TO THE WATER SUPPLY BANK

Dear Applicant:

The Department of Water Resources ("Department") has completed its review of your application(s) to lease water right(s) to the Water Supply Bank ("Bank"). Based on that review, the Department cannot accept water right(s) 2-10426 into the Bank.

This letter is notice that the attached application to lease water to the Bank is denied. In accordance with Water Supply Bank Rules, *IDAPA 37.02.03*, water rights may be leased to the Bank and made available for rent provided there is no injury to other right holders, no enlargement of use of the water rights, and the change is in the local public interest. The criteria set forth in the Water Supply Bank Rules shall be used in evaluating whether it is appropriate to place a water right, or portion thereof, into the Bank.

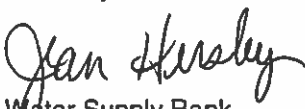

In the case of water right 2-10426, you are proposing to lease a water right for the 2016 season that is already being used at the place of use. A water right must be idled the entire season in order to be in compliance with a lease contract. Otherwise enlargement could occur if and when a water right is rented by another party.

If you can provide additional information to show reason for reconsideration, please resubmit the application with the additional information within 30 days in order to incur no additional filing fee. Department resources were expended in order to provide a full review of your applications. Therefore, the lease application filing fees will not be refunded.

Lastly the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right form. This and other water right forms are available from the Department's web site at www.idwr.idaho.gov.

If you have any questions, please contact this office at (208) 287-4800.

Sincerely,

for

Roxanne,
I'm in the process of reviewing water right 2-10426 for lease to the Bank. Aerial photography suggests Mr. Young hasn't irrigated since this right was decreed in 2009 then it appears he started irrigating this year, 2016. The applications requests the water right be leased to the Bank 2016-2020, but if Mr. Young has started irrigating this season, we cannot lease it to the Bank. Please provide the Department with an explanation. Thank you.

Clay – The State Lands Department sent this to me today for Mr. Young's signature. I'm not sure IWSB staff have seen it...so here you go! Two questions:

1. Will this replace the "designated applicant" form for Mr. Young's lease application (2-10426)?
2. Has the water supply bank agreed to send two checks for the 50-50 split (see #7 and #8)?

I'm hesitant to have Mr. Young sign until we know it will work.

WATER RIGHT NO 02-10426 TO THE WATER SUPPLY BANK**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Idaho Department of Water Resources (Department) received the application to Lease the above mentioned water right into the Water Supply Bank on December 31, 2015. On January 6, 2016 the Department requested that you provide a designated applicant form signed by the Department of Lands. This is required information since the Department of Lands is listed as a co-owner of this water right. I notified you on January 7, 2016 that a letter signed by the Department of Lands would suffice. On February 19, 2016 the Department sent a formal request for this information.

The Department is prepared to hold this application until July 1, 2016. This will allow you time to resolve the ownership issues of this water right. However, if we do not receive the requested information, we will return this application unprocessed. No filing fee will be refunded.

The Department has substantial questions about beneficial use since the date of the partial decree (2009). This application was received in 2015 and would be retroactive to the 2015 season. If this application is returned and beneficial use cannot be established, the right could be subject to forfeiture.

Please provide the following information by the deadline above:

- **Authorization from Department of Lands to Proceed with lease of water right 02-10426**

Hi Roxanne,

I have been working on Mr. Young's lease applications today.

After initial review of W/R 2-10426, our records indicate that there are (2) owners for this Water Right.

Our records show:

Mr. Roger Young (Owner)

State of Idaho Dept of Lands (as the 2nd owner)

In order for us to process W/R 2-10426 into the Water Supply Bank we will need Mr. Young and the ID Dept of Lands to sign the attached document.

Christine
