

MEMORANDUM

DATE: July 5, 2016
TO: File 63-11413
FROM: Ashley Newbry *AN*
RE: Conversation Memo

This morning at approximately 11:30 am, Cherese D. McClain, Attorney for City of Eagle, called to make an inquiry about how to remove a POD from recently licensed WR 63-11413. She was debating between sending IDWR a formal letter and filing a WR transfer.

The City no longer wishes to utilize Lexington No. 2 well for municipal purposes. The Lexington Hills HOA would like to acquire the well.

I explained to her that IDWR would accept a letter to the file, notifying us that the City would no longer utilize the well for municipal purposes, but this would not be enough for us to formally modify the right. Furthermore, when the HOA files a transfer to add the POD to their existing right, IDWR would need to see some evidence of the agreement or transaction between the City and HOA. Filing a transfer to remove the POD would be a cleaner route for both parties.
