Subject: Water Right 95-9957

Vlad,

To follow up from our discussion last week, Water Right No. 95-9957 authorizes the diversion of 0.05 cfs for the domestic use of 9 homes and the irrigation of 4.5 acres within Lots 10-14, Blk. 2, Arthur's Slyvanian Acres (and further subdivisions thereof). IDWR does not have the authority to decide how those connections and irrigated acres are allocated with the approved place of use. Multiple wells located within one of the original lots would be considered within the authorizes use of the water right as long as the total number of connections did not exceed 9 homes.

Please let me know if you have any further questions.
