Re: Water Right License 86-7164

Dear Mr. and Mrs. Gilliam:

I received your telephone message regarding the place of use that was originally applied for in the application for the above mentioned license.

I visited the Departments file and obtained the original application form that was submitted by John Gilliam in 1983, copy attached. The application did show the place of use was applied for in the SE of the SE Quarter of Section 35, Township 37 North, Range 01 West, the same as what was licensed. I've included a copy of the license and map so you can compare them with the application.

Also, a draft copy of the license was mailed to you in 1991, for a 10 day review to see if any corrections were needed before the final license was issued. See attached letter dated July 8, 1991.

To correct the place of use a transfer is still the only option as we discussed during your office visit. After you've had a chance to review the information please let me know your decision so a transfer application can be forwarded to you.

If you have any questions, feel free to contact me at this office.

Thank you.

Sincerely,

Keith E Franklin
Program Manager Northern Region
