

MEMORANDUM

Date: June 28, 2016
To: Transfer 80912
From: Blake Jordan
Re: Review & Evaluation of Sufficiency of Information

This transfer proposes to add a point of diversion for water right 29-7094. The applicant seeks to add an existing point of diversion that has historically been used to water cattle. This point of diversion was not included as an authorized point of diversion during the SRBA. The applicant seeks to include this point of diversion and continue to primarily utilize it for stock water purposes. The additional point of diversion located in the SWNW, Section 24, 07S, 35E will be limited to 0.02 cfs. The point of diversion in the SWSWNW Section 24, 07S, 35E is primarily used for irrigation.

Authority to File:

Deno Dudunake (applicant) David Dudunake and Harry Dudunake are the current owners of the water right per IDWR record and owner of property at the points of diversion. Deno Dudunake who is the applicant signed the application. David Dudunake and Harry Dudunake provided a document authorizing Deno Dudunake to sign on their behalf.

Water Right Validity:

Decreed in 2004. Aerial photography shows property consistently irrigated. Forfeiture is not an issue.

Injury to Other Water Rights:

This ground water right is not within a water district that regulates ground water. The two points of diversion are approximately 1/4 of a mile from one another. This transfer was advertised and there are no protests. No injury issues identified.

Enlargement of Use:

No issues identified.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Effect on Economy the Local Area:

No issues identified.

Effect on Agricultural Base of the Local Area:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
