Dear Lessor:

Idaho Department of Water Resources (Department) records show that all or a portion of the above referenced water right(s) were leased to the Water Supply Bank (Bank) through December 31, 2016. **This letter is notice that the right(s) are now considered released from the Bank.**

If you would like to renew the lease of these right(s) to the Bank, please complete a new Application to Sell or Lease a Water Right to the Water Supply Bank and remit the applicable filing fee. You can find new applications at the Department's website at www.idwr.idaho.gov.

A water right is not protected from forfeiture unless it is accepted into the Bank or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. The five-year period of nonuse related to forfeiture of a water right shall begin to accrue upon release of the right from the bank or shall continue to accrue if a period of nonuse occurred prior to the lease date of the right to the Bank.

If you have any questions regarding this matter, please contact me at (208) 287-4918.

Sincerely,

Conditions Applicable to All Leased Water Rights

- The water rights referenced above will be rented from the bank at the current rental rate.
- There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
- While a right is in the bank, the lessor may not use the right without approval of the Department, even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
- A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
- While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).

6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, nor does it improve the status of the right or accomplish the resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment after the following rental season.
11. The water rights leased to the bank are subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right is regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 01.
13. The actual point of diversion for these rights is in Wyoming, T44N, R118W, Sec 5, SENWNW, 6PM. The point of diversion shown above is where the conveyance system enters Idaho.
14. Water is delivered through the Hog Canal, also known as Leigh Creek Canal. Ditches with headings off the Hog Canal located in Wyoming provide irrigation water for portions of the place of use.
15. Water rights 22-161, 22-347B, 22-248B, 22-249B, 22-583B, 22-610 and 22-13176 are limited to a combined total of 206.0 acres in a single irrigation season.
16. Water right 22-161 is limited to the irrigation of 100 acres within the place of use described above in a single irrigation season.
17. Water right 22-347B is limited to the irrigation of 140 acres within the place of use described above in a single irrigation season.
18. Water right 22-348B is limited to the irrigation of 140 acres within the place of use described above in a single irrigation season.
19. Water right 22-349B is limited to the irrigation of 140 acres within the place of use described above in a single irrigation season.
20. Water right 22-583B is limited to the irrigation of 140 acres within the place of use described above in a single irrigation season.
21. Water right 22-13176 is limited to the irrigation of 140 acres within the place of use described above in a single irrigation season.
22. This water right is subject to the delivery provisions contained in Roxana Canal Co. v. Daniels, Equity No. 2447 (D. Wy. Feb. 4, 1941) ("Roxana decree"). Nothing in this Partial Decree is intended to relieve or alter the state of Idaho nor the state of Wyoming from their obligations contained in the Roxana decree.
