Re: Transfer Evaluation

Transfer No. 80814 for water right 35-2670D proposes to split water right 35-2670D into two pieces in advance of the sale of part of the property. The split portion (55.8 acres) will be associated with one of the two PODs listed on the water right (located in the NESW of Section 32, T02S, R34E). The remaining portion of the right will be associated with the other POD (located in Lot 2 of the SWSE quarter of Sec 32, T02S, R34E).

Authority to file:

The water right and place of use are in the name of Dale C Murdock, based upon tax lot data from Bingham County.

Validity of the Water Right:

Water right 35-2670D was decreed on September 11, 2011. Aerial photography shows consistent irrigation. Forfeiture does not appear to be an issue.

Injury to Other Water Rights:

No injury to other water rights was identified. An ESPA analysis was not conducted as water is not being moved. The application was not advertised. The water master for WD120 was notified of the transfer and did not oppose the transfer.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this transfer application.
