

Summary of Swan Falls Settlement Water Rights

Basin	Sequence	Suffix	Priority Date	Diversion Rate (CFS)	4/1 to 10/31 Diversion Rate (CFS)	11/1 to 3/31 Diversion Rate (CFS)	Water Use List	Current Owner
2	100		1/17/1900	2150	2150	2150	POWER	IDAHO POWER CO
2	2032 A		7/29/1919	150		150	POWER	IDAHO POWER CO
2	4000 A		1/17/1900	1840	1750	1840	POWER	IDAHO POWER CO
2	4001 A		4/17/1900	1460		1460	POWER	IDAHO POWER CO
			Subtotal	5600	3900	5600		
2	7379		3/31/1982	6550	6550	6550	POWER	IDAHO POWER CO
			Total	12150	10450	12150		
2	2032 B		7/29/1919	2950	2950	2800	POWER	STATE OF IDAHO
2	4000 B		1/17/1900	90	90		POWER	STATE OF IDAHO
2	4001 B		4/17/1900	1460	1460		POWER	STATE OF IDAHO
			Total	4500	4500	2800		
2	201		12/29/1976	3300	3300	3300	MINIMUM STREAM FLOW	STATE OF IDAHO
2	223		7/1/1985	600	600	600	MINIMUM STREAM FLOW	STATE OF IDAHO
2	224		7/1/1985	1700		1700	MINIMUM STREAM FLOW	STATE OF IDAHO
			Total	5600	3900	5600		

Idaho Power Co's original unsubordinated water right at Swan Falls was 8400 cfs. Resulting from the Swan Falls settlement, as implemented through the Snake River Basin Adjudication, Idaho Power Co's 8400 cfs was right was split. Idaho Power Co retains rights totalling 3900 cfs during the irrigation season and 5600 cfs during the winter. The State of Idaho holds the remainders, 4500 cfs during the irrigation season and 2800 during the winter, in trust for Idaho Power Co and the people of Idaho. The State of Idaho also has minimum stream flow water rights in the Snake River near Swan Falls equalling Idaho Power Co's portions of the 8400 cfs. Finally, Idaho Power Co has a newer water right for 6550 cfs that was not part of the Swan Falls settlement.
