RE: Water Right Permit No. 75-7354

Dear Mr. Bossert:

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms that a water right has been established in compliance with the terms of the permit. The examiner who verified your water use found a beneficial use not listed on the permit. Before licenses can be issued, your permit must be amended to depict your water right as it was actually developed. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee within 21 days.

If you have any questions, please call me at (208)287-4881.

Sincerely,

Sandra Thiel
Sr. Water Resource Agent
