RE: Beneficial Field Exam for Water Permit 63-8392

Dear Mr. Bengstom:

I will be in the local area on June 14, 2016. Current water permit records suggest that you may be the current owner of the property where a well is located at Township 05N Range 01E section 29. (5352 N Willow Rd Eagle Id.) where the above referenced permit was filed. The property receiving the water according to our records is located at 164 W Lucy Ct. I would like to schedule a time to conduct a water right licensing examination. If this property no longer receives water for irrigation from a groundwater well, we may be able to eliminate this water right.

The current county property information shows that you may be owner of the lot where this well is located. Our records indicate that the current water permit owner is Gloria Anderson-Pippin. Current county tax lot information shows that the property using the water is owned by your neighbor Jason Sager. We have attempted to contact both of them with no success. Mrs. Pippin completed the process up to the point of having the use verified. A water right permit is personal property of the permit owner. It remains personal property unless it is assigned to a new owner or owners or if it is licensed.

I appreciate your attention to this matter and I look forward to hearing from you. Please contact me at 287-4910 to schedule an exam for this water right permit.

Respectfully,

Clay A. Webster
Water Resource Agent
