RE: Beneficial Field Exam for Water Permit 63-12568

Dear Mr. and Mrs. Camp:

I have been asked to perform several field exams in your area. Current ownership records suggest that you may be the current owners of the property (11389 W Reutzel Dr. Boise Idaho) where a portion of the above referenced permit was filed. I would like to schedule a time to conduct a water right licensing examination. If this property no longer receives water for irrigation from Eight Mile Creek, we may be able to eliminate this water right without the need for a field visit.

Our records indicate that the current water right permit owner is Richard F. and Christine Maschmann. We have attempted to contact them with no success. They completed the process up to the point of having the use verified. A water right permit is personal property of the permit owner. It remains personal property unless it is assigned to a new owner or owners or if it is licensed. After being licensed, the right is then an appurtenance to the property. Once it is licensed, an ownership change could be processed to place the right into the new owners names.

Please call me within 14 days at 208-287-4910 to discuss this water right permit.

Respectfully,

Clay A. Webster  
Water Resource Agent

RE: Beneficial Field Exam for Water Permit 63-12568

Dear Mr. and Mrs. McBride:

I have been asked to perform several field exams in your area. Current ownership records suggest that you may be the current owners of the property (11357 W Reutzel Dr. Boise Idaho) where a portion of the above referenced permit was filed. I would like to schedule a time to conduct a water right licensing examination. If this property no longer receives water for irrigation from Eight Mile Creek, we may be able to eliminate this water right without the need for a field visit.

Our records indicate that the current water right permit owner is Richard F. and Christine Maschmann. We have attempted to contact them with no success. They completed the process up to the point of having the use verified. A water right permit is personal property of the permit owner. It remains personal property unless it is assigned to a new owner or owners or if it is licensed. After being licensed, the right is then an appurtenance to the property. Once it is licensed, an ownership change could be processed to place the right into the new owners names. Please call me within 14 days at 208-287-4910 to discuss this water right permit.

Respectfully,

Clay A. Webster

RE: Beneficial Field Exam for Water Permit 63-12568

Dear Mr. and Mrs. Maschmann:

I have been asked to perform the licensing field exam on the above mentioned permit. I would like to schedule a time to conduct a water right licensing examination during that time.

Please have someone that is familiar with the system and its operation available at the exam.

On January 24, 2000 you applied for a water permit for Stockwater and Irrigation use at the property located at Township 03N Range 01E section 27. The Department received proof of beneficial use in August 2000.

The department has been attempting to contact the new owners to schedule a field exam. No response has been received. Without verification that the water was used, the department will have to void the permit.

I appreciate your attention to this matter and I look forward to hearing from you. Please contact me within 14 days at 287-4910 to discuss this water right permit.

Respectfully,

Clay A. Webster  
Water Resource Agent
