Subject: Lost Creek Estates, PWS# ID1280331

Dear Ms. Block,

As per our phone conversation earlier today regarding Water Right Permit #95-9277, the Lost Creek Estates water system (System) has been assigned public drinking water system identification number ID1280331 by the Idaho Department of Environmental Quality.

The System was reviewed and approved by DEQ Engineering staff to operate at build out as a community public drinking water system. The System currently serves eight active connections and will be regulated as a public drinking water system when fifteen service connections and/or twenty five individuals are served at a frequency of greater than 60 days per year.

I hope this letter provides clarification on this matter. I may be reached at 208-666-4624 if you have any questions or concerns. Thank you.

Sincerely,

A handwritten signature in blue ink that reads "Suzanne Scheidt Miller".
