EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Transfer # 80686 File

FROM: Corey Skinner

DATE: May 25, 2016

SUBJECT: Addition of Points of Diversion

Transfer # 80686 involves several Oakley Canal Company water rights that are diverted from various sources (Goose Creek, ground water, Little Cottonwood Creek, Big Cottonwood Creek, and Birch Creek). During processing of the transfer it was noted that several of the rights involved with the transfer did not have point of diversion descriptions that were consistent with each other. For example, 15 of the rights involved with the transfer are routed through Goose Creek (Oakley) Reservoir, but only 14 rights listed Goose Creek (Oakley) Dam as a point of diversion, and only 12 of these rights listed diversions below the dam. In addition, the 12 rights that listed diversions below the dam, only listed one point of redirection in Section 17 (T14S, R 22E) despite the fact that there are actually two diversions at this location (West Canal and East Canal).

A few weeks ago, Allen Merritt and I met with representatives of the Oakley Canal Company and discussed the possibility of correcting some of the point of diversion discrepancies with the rights as part of the transfer # 80686 approval. They seemed open to the idea, so we asked that they submit a letter asking for the point of diversion corrections and we would proceed to issue the transfer approval accordingly. On May 19th, IDWR received a signed letter from the Oakley Canal Company requesting the changes/additions to the points of diversion. The draft transfer # 80686 approval document has been adjusted accordingly.

Dear Mr. Skinner

As per our conversation last week, these are our suggestions:

1. Leave the high-line point of diversion as is.
2. We agree with the changes at the main diversion of the east/west canals that we discussed
3. We request that the diversion out of the reservoir remain the same.
4. The unknown mark next to #19 needs to be removed from map.

If you have any further questions feel free to contact us.

MEMORANDUM

TO: Transfer # 80686 File

FROM: Corey Skinner

DATE: April 13, 2016

SUBJECT: Water Master Comments

Transfer # 80686 involves several Oakley Canal Company water rights that are diverted and located within several water districts &/or sub districts. These various districts are 45B (Birch Creek), 45C (Goose Creek), 45K (Big Cottonwood Creek), and 140 (Basin 45). As part of the transfer processing, comments from the water masters from the various districts were solicited. No response was received from the Water District 140 water master and the Water District 45B & 45K water master (same individual) indicated that he did not oppose the approval of the application. However, the Water District 45C water master indicated that he opposed approval of the application. His comment form indicated that he opposed approval of the application for the following reason...

"The number of acres that are under the Oakley Canal Co affects the terms of the water rights of district 45C."

During the last two weeks I have attempted to contact the Water District 45C water master in order to discuss his submitted comments. I have left messages, and actually spoke with the water master on one occasion, but he indicated that he was busy and would call me back. As of this date, I have yet to hear back from the water master.

When considering his submitted comment, I am unaware of how the *"number of acres that are under the Oakley Canal Co affects the terms of the water rights of district 45C."* The number of acres listed under the Oakley Canal Company rights is identified as being below Oakley Reservoir and Dam, essentially the last diversion on Goose Creek for all practical purposes. Modifications to the place of use of the Oakley Canal Company rights should have no impact to the other water rights within Water District 45C. In particular, there will be no impacts to the amounts or priority of the other rights in the district.

It appears that even after considering the Water District 45C water master's comments, there does not appear to be a valid reason to prevent IDWR from approving Transfer # 80686.
