Rev. 01/15

APR 13 2016

DEPARTMENT OF
WATER RESOURCES

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

Transfer No. 80834

MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at www.idwr.idaho.gov.

Name of Applicant(s) Leadore Land Partners, LP

Check whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.

Yes N/A * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a [Part 2A](#) report describing each water right in the transfer as currently recorded.
- ☒ ☐ Complete and attach an Application for Transfer [Part 2B](#) for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. ([Fee schedule](#) is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☐ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). **
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☒ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm.
- ☐ ☒ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☒ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System ([GIS](#)) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. If some or all of any right is leased to the Water Supply Bank, you must also show the the specific location and/or acres to be idled at the new, proposed place of use to satisfy lease requirements.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see [fee schedule](#).
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☐ ☒ #9 Water Supply Bank information for all rights proposed for transfer and currently leased to the Bank. ([Attachment WSB](#))
- ☐ ☒ #10 Other. Please describe: _____

**STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES**

**APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1**

Name of Applicant(s) Leadore Land Partners, LP Phone (406) 360-2438

Mailing address P.O. Box 16025, Missoula, MT 59808 Email _____

- ☐ If applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign or act on behalf of the applicant. Label it **Attachment #1**.
- ☐ Attach water right ownership documentation if Department records do not show the transfer applicant as the current water right owner. Label it **Attachment #2a**.
- ☐ If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). Label it **Attachment #2b**.
- ☐ Attach documentation of authority to make the proposed change if the applicant is not the water right owner. Label it **Attachment #3**.

Provide contact information below if a consultant, attorney, or any other person is representing the applicant in this transfer process.

☐ No Representative

Name of Representative Roxanne Brown, SPF Water Engineering Phone (208) 383-4140

Mailing address 300 E. Mallard Dr., Ste. 350, Boise, ID 83706 Email rbrown@spfwater.com

- ☐ Send all correspondence for this application to the representative and not to the applicant.
OR
- ☒ Send original correspondence to the applicant and copies to the representative.
- ☒ The representative may submit information for the applicant but is not authorized to sign for the applicant.
OR
- ☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation providing authority to sign for the applicant and label it **Attachment #4**.

I hereby assert that no one will be injured by the proposed changes and that the proposed changes do not constitute an enlargement in use of the original right(s). The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Date

A. PURPOSE OF TRANSFER

- ☒ Change point of diversion
☐ Change nature of use

☐ Add diversion point(s)
☐ Change period of use

☒ Change place of use
☐ Other _____
- Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred (i.e. number of stock, etc.), and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it **Part 1A.2**.
 The applicant seeks to change the place of use to correctly describe the location of two pivots that will be changed as part of a conservation project. The change to the point of diversion removes the well in NWSE, S26, T16N R26E.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT

PART 1 Continued

B. DESCRIPTION OF RIGHTS AFTER THE REQUESTED CHANGES. IF THE RIGHTS ARE BEING SPLIT, DESCRIBE PORTIONS TO BE CHANGED AS THEY WOULD APPEAR AFTER THE REQUESTED CHANGES.

1.	Right Number	Amount (cfs/ac-ft)	Nature of Use	Period of Use	Source & Tributary
All or Part					
☐	☐			to	
☐	☐			to	*
☐	☐			to	
☐	☐			to	
☐	☐			to	
☐	☐			to	
☐	☐			to	
☐	☐			to	
☐	☐			to	
☐	☐			to	

See Part 1B(1) Addendum

Total authorized under rights 11.71 cfs and/or _____ acre-feet.

2. Total amount of water proposed to be transferred or changed 5.43 cubic feet per second and/or _____ acre-feet per year.

3. Point(s) of Diversion:

- ☐ No changes to point(s) of diversion are proposed - the following chart is therefore not completed. (Proceed to #4.)
- ☐ Attach Eastern Snake Plain Aquifer analysis if this transfer proposes to change a point of diversion affecting the ESPA. Label it **Attachment #5**.

New ?	Lot	¼	¼	¼	Sec	Twp	Rge	County	Source	Local name or tag #
N			NW	NE	26	16N	26E	Lemhi	groundwater	
N			NW	SW	24	16N	26E	Lemhi	Canyon Creek	

4. Place of use: (If irrigation, identify with number of acres irrigated per ¼ ¼ tract.)

- ☐ No changes to place of use are proposed - the following chart is therefore not completed. (Proceed to #5.)

Twp	Rge	Sec	NE ¼				NW ¼				SW ¼				SE ¼				Acre Totals	
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE

**Insert this page into Part 1B of the Application for Transfer of a Water Right.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

**APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1 Continued**

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

The complete system will consist of existing points of diversion and distribution piping to two center pivots. A measuring device and lockable control will be installed as required by the water district.

- b. Who owns the property at the point(s) of diversion? applicant

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?

If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: _____

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?

If yes, ☐ complete Attachment WSB.

- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

This application is one of a set of applications to be submitted simultaneously. The net result will be a change in the place of use for each water right appurtenant to the applicant's land. No additional irrigation (enlargement) will occur.

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

None.

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- | | | |
|--------------------------|-------------------------------------|---|
| ☐ | ☒ | undergone a period of five or more consecutive years of non-use, |
| ☐ | ☒ | currently leased to the Water Supply Bank, |
| ☐ | ☒ | currently used in a mitigation plan limiting the use of water under the right, or |
| ☐ | ☒ | currently enrolled in a Federal set-aside program limiting the use of water under the rights? |

If yes, describe:

Water Right No(s). 74-162, 74-163, 74-164, 74-7064, 74-7271

Dear Applicant(s):

The Department of Water Resources has received your water right transfer application. Please refer to the transfer number referenced above in all future correspondence regarding this transfer.

A legal notice of the application has been prepared and is scheduled for publication in the RECORDER HERALD on 6/2/2016 and 6/9/2016. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the approval document.

Please contact this office if you have any questions regarding the application.

Sincerely,

Jean Hersley

Dear Watermaster:

The Department of Water Resources is seeking written comment and/or recommendations from you regarding the above referenced water right application for permit. You can find copies of the application at: <http://www.idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Jean Hersley

Any protest against the proposed change must be filed with the Department of Water Resources, 322 E Front St, PO Box 83720, Boise ID 83720-0098 together with a protest fee of \$25.00 for each application on or before 6/20/2016. The protestant must also send a copy of the protest to the applicant.

GARY SPACKMAN, Director

Published on 6/2/2016 and 6/9/2016

MEMORANDUM

Date: May 10, 2016
To: Transfer 80834
From: Steven Visosky
Re: Review & Evaluation of Sufficiency of Information

The proposed transfer application proposes to change the place of use (POU) and the point of diversion (POD) to more accurately describe the use in two pivots primarily supplied from Canyon Creek and supplemented by two ground water rights. The change in POD involves changing the location of water right 74-7064 POD to the existing location of the POD of the other ground water right (74-7271) in this transfer. The POD change for the surface the water right 74-164 removes one of the two existing PODs on Canyon Creek.

This transfer is one of three transfers that will be processed simultaneously with twelve overlapping water rights. This transfer is one component of a conservation project intended to improve streamflows and fish habitat in Hawley Creek and Canyon Creek to benefit anadromous fish.

The application was submitted by Representative Roxanne Brown of SPF Water Engineering LLC on behalf of Leadore Land Partners, LP. The fee associated with transferring the 5.43 cfs was received on 4-13-2016.

Authority to File: The application was signed by Karl Tyler who was confirmed with the Idaho Secretary of State as a general partner for Leadore Land Partners, Limited Partnership. Leadore Land Partners does own all of the land associated with the POU however the proposed pipeline from the source does cross over BLM. Roxanne Brown submitted documentation from the BLM acknowledging a pending application for a Right-of-Way for Mr. Karl Tyler

Water Right Validity: There are five water rights proposed in the transfer. Both of the ground water rights (74-7271 and 74-7064) and 74-164 were decreed in 2007. Water rights 74-162 and 74-163 were decreed in 2012. Aerial photography shows the total amount of land permitted to be irrigated under the two surface water rights that served as both primary and supplemental sources along with the surface water rights were irrigated at least once in the last five years.

Injury to Other Water Rights: This transfer proposes the shifting of acres on land owned by the applicant to accurately describe two pivot systems. The Canyon Creek water right proposes to remove a POD on Canyon Creek and the change in location for the groundwater POD is to an existing groundwater POD. As the amount of land irrigated and the rate of diversion is not increasing, the transfer should not injury other water rights.

Enlargement of Use: This transfer proposes utilizing surface water from Canyon Creek, and ground water will also be used for this system. The portion of the two ground water rights (74-7064 and 74-7271) used in this transfer are fully overlapping with the surface water rights as the portion of ground water that was authorized as a sole source was fully consumed in the first transfer proposed (80831).

The total amount of acres irrigated from the five water rights included in the transfer does not increase after the transfer. Stacked water rights that were conditioned prior to the transfer were moved accordingly with this transfer.

Local Public interest: Comments will be requested from Water District 74W and IDWR Eastern Regional

office to address any concerns. BLM should also be notified as the proposed place of use borders BLM and the proposed pipeline will be on BLM property. The place of use for this transfer is within the Wild and Scenic Watershed of the Salmon River and is within close proximity to Minimum Streamflow water right 74-14993 however there is no increase in diversion rate or acreage as a result of this transfer.

Beneficial Use/Conservation of Water Resources: Irrigation is a recognized beneficial use and no concerns about conservation were found during the review.

Effect on Economy the Local Area: No change to local economy through the transfer.

Effect on Agricultural Base of the Local Area: No change proposed that would affect the local agricultural base.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

APR 01 2016

Dear Mr. Olson:

This letter is to inform those concerned with the Canyon/Hawley project of the status of the authorizations that are current and pending on public lands administered by the Bureau of Land Management (BLM) in the project area.

Mr. Tex Kauer (McFarland Livestock, LLC) holds rights for conveyance of water across BLM lands within the noted limits of 50 feet wide by 17,830 feet long. These rights are noted under the under the authority of the Act of July 26, 1866, 14 Stat. 253, as amended, 43 U.S.C. 661 (1970).

Mr. Karl Tyler (Leadore Land Partners) holds rights for conveyance of water across BLM lands within the noted limits of 50 feet wide by 23,676 feet long. These rights are noted under the under the authority of the Act of July 26, 1866, 14 Stat. 253, as amended, 43 U.S.C. 661 (1970). Mr. Tyler also has a pending application for a Right-of-Way of 50 feet wide by 7,789 feet long, running adjacent to Mr. Kauer's. The route of the pipeline for Mr. Tyler has not yet been determined, but either option will require approximately the same amount of materials.

The Salmon Field Office is a partner and supporter of this project. It contributes to the connectivity of the Lemhi River tributaries, improves irrigation efficiencies and provides resource benefits to the project area.

If you have any questions or concerns please contact Vince Guyer, at 208.756.5403.

Sincerely,

Linda R. Price
Field Manager

Steven –

Thank you for contacting me with your questions concerning the Leadore transfers. You asked for clarification on two points:

1. Transfer 80833 (Hawley Creek) Yes, the intention is to eliminate both the point of injection and point of rediversion from Hawley Creek. As you explained, IDWR views this as a change to the point of diversion for purposes of the transfer.
2. Transfer 80834 (Canyon Creek) The point of diversion for stockwater will be the same point of diversion for irrigation after the transfer. The current point of diversion in Section 18 goes away.

We also discussed primary vs. supplemental water rights. Attached is the overlap chart I constructed to prepare the transfer; the chart may be helpful.

Thank you for contacting me directly by phone. I look forward to working with you if you have additional questions.

Steve –

I appreciate your attention to the Leadore Land Partners transfers for Hawley and Canyon creeks. We spoke today about water right 74-162 (which appears on both of the transfer applications captioned in this email). You sought clarification of a confusing Condition that appears on the SRBA decree of this right. The Condition reads as follows: "Water diverted flows back into Hawley Creek and is rediverted at a point in Lot 1, T16N 27E S31."

We discussed the following points:

1. The source for water right 74-162 is Canyon Creek at the existing point of diversion in T16N R26E S24, which is north and west of the point identified in the Condition.
2. The point of rediversion described in the Condition is the same point of rediversion from Hawley Creek listed on the other Hawley Creek rights.
3. It does not appear physically possible for the water diverted from Canyon Creek to flow uphill to the point of rediversion from Hawley Creek.

I believe we agreed that the Condition must have been placed on water right 74-162 in error and will not appear on the approved transfer.

Again, thank you for picking up the phone to discuss this directly. I know it saves you processing time and we are always happy to help!

Steve – They want to start construction in July (if possible) and complete the project this Fall. I would expect the project to be completely buttoned up in the 1-year time frame.

*Subject: Applications for Transfer – Leadore Land Partners LP
SPF Project No.:*

Dear James,

Enclosed on behalf of Leadore Land Partners LP are four water right transfer applications to change the points of diversion (in some cases) and places of use for 12 overlapping water rights authorizing diversions from Hawley Creek, Canyon Creek, and groundwater wells. More specifically, the transfer applications can be described as follows:

1. A *Notice of Diversion as an Alternative to Instream Stockwater Use* (Form 113) that seeks authorization to move a previously unrecorded instream stockwater use along Hawley Creek away from the stream channel to troughs;
2. A transfer application to describe use in two pivots primarily supplied from Hawley Creek (no change to points of diversion);
3. A transfer application to describe use in two pivots primarily supplied from groundwater (with changes to the points of diversion);
4. A transfer application to describe use in two pivots supplied primarily from Canyon Creek and groundwater (with changes to the points of diversion).

The transfer applications are one component of a conservation project intended to improve streamflows and fish habitat in Hawley Creek and Canyon Creek to benefit anadromous fish. The transfer applications propose a careful unstacking and rearrangement of several water rights without enlarging individual rights. A spreadsheet summarizing "before-and-after" water right descriptions is included with each application proposing changes to existing water rights. SPF can provide GIS shapefiles for proposed points of diversion and places of use, and we are available to discuss the applications with IDWR staff to clarify any details and answer any questions.

The filing fee for each application is shown in the table below:

Transfer Description	Transfer Application Fee
Notice of Diversion as an Alternative to Instream Stockwater Use	\$ 25.00
242.6 acre Hawley Creek Application	\$1,140.00
155.6 acre Canyon Creek Application	\$ 900.00
254.8 acre Groundwater Application	\$ 820.00
TOTAL	\$2,885.00

A check for the total fees is enclosed.

Sincerely,

Roxanne Brown
Sr. Water Rights Specialist
