Conditions of Approval:

- 26A Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.

SCANNED
 MAY 27 2016

IDAHO DEPARTMENT OF WATER RESOURCES
Water Permit 63-12240

5/24/2016

2. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
3. 004 This right does not grant any right-of-way or easement across the land of another.
4. X01 Domestic use is for 1 home.
5. X60 Place of use is located within Lot 7, block 1, Talon Ridge Subdivision
6. 165 To prevent injury to prior water rights appropriating water from the Boise River and/or the underlying shallow aquifer tributary to the Boise River, the new well used as a point of diversion for this water right located within Section 30, Township 05N, Range 01E NESE and NW SE shall be constructed and maintained with unperforated casing and sealed into the first significant confining layer located 200 feet or more below ground surface.
7. Water Bearing Zone to be appropriated is from 250 to 350 feet.
8. 121 The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
