N/A						

2. Measurements: No field measurement. No inlet or outlet measuring devices in which to obtain a flow measurement.

E. FLOW CALCULATIONS

____ Additional Computation Sheets Attached

Measured Method: N/A

(Storage right only – no diversion rate)

F. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation: N/A

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{D.R.} =$$

2. Volume Calculations for Other Uses: (Recreation & Aesthetic Storage Pond)

Storage Pond Surface Area – 0.50 ac.

Storage Pond Depth – 7 ft.

$$V_d = 0.50 \text{ ac.} \times 7 \text{ ft.} = 3.50 \text{ AF}$$

$$V_r = 0.70 \text{ AF} < 3.50 \text{ AF } V_d$$

$V_r < V_d$ Recommend the Permit Volume of 0.70 AFA

G. NARRATIVE/REMARKS/COMMENTS**WATER SUPPLY SYSTEM:**

A 0.5 acre recreation and aesthetic storage pond was constructed on an Unnamed Stream. A drainage ditch/channel, which conveys water from an unknown source, discharges water to the storage pond inlet channel, providing additional flow to the Unnamed Stream. An outlet channel located at the north end of the storage pond, discharges water back to the Unnamed Stream.

Note:

The size and storage volume of the storage pond is considerably larger than the proposed storage pond as stated in the application by the previous property owner. The right holder shall be required to submit a new application for the additional storage volume of 2.8 AF.

OVERLAP ANALYSIS:

Point of Diversion: There are no point of diversion overlaps for Water Right Permit No. 78-7395.

Place of Use: There are no place of use overlaps for Water Right Permit No. 78-7395.

Have conditions of permit approval been met? ☒ Yes ☐ No

RATE &/OR STORAGE RECOMMENDED FOR LICENSING

Description	Rate of Flow (cfs)		Storage (af)

Water Right Permit: 78-7395

Field Exam Date: 6-23-14

PLS: SW1/4, SE1/4 Section 33, T.21N, R.01E

Field Examiner: RC

Point of Diversion: View southerly of a culvert pipe discharging water from an Unnamed Stream to the recreation and aesthetic storage pond inlet channel.

Point of Diversion: View southeasterly of a drainage ditch/channel which discharges water from an unknown source into the storage pond inlet channel downstream of the culvert pipe.

Place of Use: View northerly of the recreation and aesthetic storage pond. The inlet channel and the drainage ditch/channel are shown in the foreground.

Place of Use: View northerly of the recreation and aesthetic storage pond. The overflow channel is located at the north end of the storage pond.

View southeast of the storage pond outlet located at the north end of the storage pond.

View northeasterly of the Unnamed Stream downstream of the storage pond outlet.

MEMORANDUM

Date: January 12, 2015
To: Water Right File 78-7395
From: kwalker
Re: Ownership

The current owners of this property submitted a change in ownership but did not submit a deed after 2 letters requesting it. See correspondence of 10/30 and 12/5/14 in file. They also did not submit the application for permit that is required to cover the size of pond that has been developed. We had sent a completed app to the property owners to cover the additional storage over and above this right.

Rec'd app.

RE: Water Right Permit 78-7395

Dear Mr. and Mrs. Wallace:

We found that there is a question in regard to the proposed licensing of Permit 78-7395. That permit was conditioned as follows:

The right holder shall comply with all fish screening requirements of the Idaho Department of Fish and Game.

Our examiner stated that there were no fish screens installed on any of the pipes in your pond development. We cannot issue the license for that permit unless the conditions of approval have been complied with. Do you have any information in regard to fish screen installation? Would you be willing to install fish screens on the pipes in order to retain the permit? Any information you can provide in regard to the fish screens would be appreciated. Please submit a written explanation of your knowledge of this requirement within the next 30 (thirty) days. If we don't receive this information within this time period the permit may be voided for failure to comply with the conditions of approval.

A copy of the permit is enclosed for your information. Please let me know if you have any questions in regard to this matter or if you need more information. Thank you for your attention to these matters.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

Permit To Appropriate Water

NO. 78-07395

Proposed Priority: November 17, 1998

Maximum Storage Volume:

0.7 AF

This is to certify, that LAWRENCE E COSTELLO
749 HIGH POINT LN
BOISE ID 83712

has applied for a permit to appropriate water from:

UNNAMED STREAM

tributary of ROUND VALLEY CREEK

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
RECREATION STORAGE	01/01 to 12/31		0.7 AF
AEETHETIC STORAGE	01/01 to 12/31		0.7 AF
	Totals		0.7 AF

LOCATION OF POINT(S) OF DIVERSION:

SWSE , Sec. 33, Township 21N, Range 01E
ADAMS County

PLACE OF USE: RECREATION STORAGE

TWN RGE SEC

21N 01E 33

SWSE

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before April 1, 2000.
2. Subject to all prior water rights.
3. The right holder shall comply with all fish screening requirements of the Idaho Department of Fish and Game.
4. Aesthetic storage and recreation storage uses are for a pond.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.
Witness the signature of the Director, affixed at Boise, this

12th day of April, 1999.

Subject: RE: Exam for 78-7395 - was Costello now Wallace

Kay,

If I remember correctly, there is not a fish screen on the inlet pipe to the pond. If I remember right, an inlet pipe extends through an embankment to discharge the stream flow. There is a secondary water source coming from the east which discharges to the main inlet channel, and there is not a fish screen there either. There is not a fish screen at the outlet of the pond or in the stream on the right holder's property. The stream which feeds the pond discharges to Round Valley Creek (I think that is the name), which is quite a distance north of the right holder's property. I did not investigate at Round Valley Creek to see if there was a fish screen structure.

I hope this helps, but I am pretty sure that there are no fish screens at the inlet pipe or at the pond outlet.

Take care,
Rick

Subject: Exam for 78-7395 - was Costello now Wallace

Hi, Rick!

I was assigned the application that Mr. Wallace submitted to cover the storage in his pond that was developed larger than permitted under 78-7395. I pulled the draft license out of the Manager's office and see Steve had a note on it regarding the fish screen condition. Do you happen to remember if there was a fish screen in place on the diversion? I have the field exam and pictures on my desk if scanning them in would help you. I can't see anything in the exam that addresses the fish screen requirement. Let me know if I can help you recall this exam by scanning stuff in. Thanks for your help in this matter!

RE: Water Right Permit 78-7395

Dear Mr. and Mrs. Wallace:

On October 30, 2014, I sent you a letter concerning the above referenced water right permit. As stated in that correspondence you had submitted a Notice of Change in Water Right Ownership but had not included a copy of your deed with the form. We cannot process the ownership change form without a copy of your deed.

I had also sent you a partially completed Application for Permit form since the pond, as developed, is larger than permitted. Please be advised that if you don't file the application to cover the additional storage in your pond, only a portion of the water in the pond will be covered. At some time in the future you may be required to fill in the pond so that it can only hold the 0.7 acre feet that was permitted.

Please submit a copy of your deed within the next 30 days. If we don't receive the deed within the next 30 days we will assume you don't want this right licensed in your name and will proceed to license this permit in the name of the former owners. If you have any questions or need additional time to send in your deed please let me know at your earliest convenience.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

RE: Water Right Permit 78-7395

Dear Mr. and Mrs. Wallace:

We are in receipt of the Change in Water Right Ownership form that you submitted in regard to the above referenced permit. Please be advised that we need to have a copy of your deed for this property before we can process the ownership change. The deed is a requirement for an ownership change as described under item 6 on the form. Please submit the deed at your earliest convenience so we can complete the licensing of this permit.

We also note that our examiner, Rick Collingwood, found that the pond developed under this permit was built larger than permitted. The permit was issued for a pond that was to be 0.7 acre feet in size. Mr. Collingwood found that the pond was constructed to be 3.5 acre feet. In order to cover the additional water stored in the pond you should file an additional water right permit to cover the additional 2.8 acre feet of storage or fill the pond in so that it only holds 0.7 acre feet of water. We have partially completed an application for permit form for your use in this matter. Please complete all the information on the form and return it to this office with a \$100.00 filing fee in order to have water right coverage for all of the water that is stored in the pond.

Please review the application for permit form and if you agree, sign it on page 2 and return it to this office with a \$100.00 filing fee. If you have any questions or concerns regarding this matter, please feel free to contact me or Mr. Collingwood at (208)334-2190.

Sincerely,

A handwritten signature in black ink that reads "Kay Walker". The signature is fluid and cursive, with the first name "Kay" and last name "Walker" clearly distinguishable.

- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
5. Total quantity to be appropriated is (a) _____ cubic feet per second (cfs) and/or (b) 2.8 acre feet per year (af).
6. Proposed diverting works:
- a. Describe type and size of devices used to divert water from the source. Existing pond = 0.5 af area x 7 feet deep = 3.5 af
- b. Height of storage dam _____ feet; active reservoir capacity 0.5 acre-feet; total reservoir capacity 3.5 acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☒ No
- c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
- d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No
- e. If well is already drilled, when? _____; drilling firm _____:
 well was drilled for (well owner) _____; Drilling Permit No. _____
7. Description of proposed uses (if irrigation only, go to item 8):
- a. Hydropower; show total feet of head and proposed capacity in kW. _____
- b. Stockwatering; list number and kind of livestock. _____
- c. Municipal; complete and attach the Municipal Water Right Application Checklist.
- d. Domestic; show number of households _____
- e. Other; describe fully. Pond for recreation and aesthetic purposes.

8. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
21N	1E	33															X		

Total number of acres to be irrigated: _____

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?

78-7395 for 0.7 af of storage in the pond.

- Who owns the property at the point of diversion? Applicants
- Who owns the land to be irrigated or place of use? Applicants
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing:

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

A 0.5 acre pond constructed on an unnamed stream. A drainage ditch/channel conveys water from an unknown source, discharges water to the pond inlet channel, providing additional flow to the unnamed stream. An outlet channel located at the north end of the pond discharges water back to the unnamed stream.

12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8 1/2" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

July 24, 2013

Katelyn N. Campbell, Inc.
3130 El Camino Del Norte
Encinitas, CA 92024

Re: Water Right Permit No. 78-7395

Dear Ms. Campbell:

I am writing to inform you of an existing water right permit which exists on your property at Ranch #20 Circle 'C' Ranch Subdivision north of New Meadows, Idaho. A water right permit is not a water right, but a permit issued by the Department to allow the beneficial use of water as requested by the applicant. The beneficial use for the water right permit is to divert surface water from an unnamed stream to a pond for aesthetic and recreation storage.

The water right permit was issued to the previous owner, Lawrence Costello, in 1999. Last year I attempted to contact Mr. Costello to schedule a field exam. However, my scheduling letter was returned with no forwarding address. In reviewing the tax lot ownership for Ranch #20, I discovered that you are now the current property owner.

In order to proceed with obtaining a water right for the aesthetic and recreation storage of the pond on your property, there are two options available which transfers the water right ownership to you. The first option would be to have the Mr. Costello assign the permit to you. If you have contact information for Mr. Costello, we can submit an 'Assignment of Permit' form to him for his execution. The process fee for an 'Assignment of Permit' is \$25.00. If contact information is not attainable for Mr. Costello, the next option would be to proceed with obtaining the water right under the Mr. Costello's name. Upon issuance of the water right, you will then need to execute a 'Change of Ownership'. This will officially transfer the water right ownership to you. The process fee for the 'Change of Ownership' is \$25.00.

The next step which needs to take place to proceed with the issuance of the water right is to conduct a field examination. The field examination is required to verify that the permit information is accurate, and if possible to obtain a water flow measurement from the diversion from the unnamed stream. If the surface water is no longer being put to beneficial use for aesthetic and recreation storage, please let me know and we will proceed with relinquishment or

voidance of the water right permit. However, if you are diverting surface water to a pond for aesthetic and recreation storage, you are required to obtain a water right from our Department.

Since you may not be aware of the water right permit and the terminology enclosed above, I have enclosed a copy of a proof report and an aerial photo for clarification.

If you have any questions, you can contact me at the Idaho Department of Water Resources Western Region Office at (208) 334-2190, or by e-mail at rick.collingwood@idwr.idaho.gov.

Sincerely,

A handwritten signature in black ink that reads "Rick Collingwood". The signature is written in a cursive style with a large, looping "R" and "C".

RE: Scheduling Field Exam for Water Right Permit No. 78-7395

Dear Mr. Costello:

We are planning to **conduct water right field examinations** in the vicinity of the above-referenced permit **on August 29, 30, & 31, 2012**. An examination is needed to verify your water use in order to issue a water right license.

Please be advised that you will need to operate your system under normal operating conditions during the examination. The permit authorizes the diversion of 0.70 AF of surface water (Unnamed Stream) for aesthetic and recreation storage.

In order to conduct your exam as efficiently as possible, we ask that you call this office to schedule a day and time convenient for you. **Please call me at 208-334-2190 by August 14, 2012, to conduct the exam on August 29, 30, or 31, 2012.** If there is a problem with scheduling or conducting the examination at this time, please let me know so we can reschedule or make other arrangements.

I appreciate your attention to this matter and I look forward to hearing from you.

Sincerely,

Rick Collingwood, P.E.
Water Resource Agent, Sr.
