RECOMMENDATION OF WATERMASTER

Application No.: 80150

Applicant's Name: Herbst

Watermaster's Recommendation:

- a) ☐ I do not oppose approval of this application.
b) ☒ I do not oppose approval of this application if it is conditioned as follows:

c) ☐ I oppose approval of this application for the following reasons:

d) ☐ Additional Comment:

Dated this 1 day of July, 2015.

Water District No: 74

Watermaster's Signature

July 1 2015

In reference to application 80150

I do not oppose approval of this application under these conditions.

That two measuring devices be installed not just one.

It is stated that one will be installed below the fish screen which the applicant is calling A-21 where L-31 div crosses Tendoy lane, but the diversion on down Agency creek is also to be administered by WD 74. So I guess they are calling it A-22?? Part of water right # 74-7147 will be delivered here.

The applicant also is diverting water above A-21 with no measuring device.

Looking up on IDWR web site I show no Agency Creek div for applicant except several miles upstream. This should be looked into.

So I believe these conditions should be met by applicant before recommendation.

Rick Sager

Water Master Dist 74
