PROOF DEFICIENCY LETTER

RE: Permit No. 95-9277

Dear Permit Holder(s):

The Department has received your Statement of Completion for proof of beneficial use ("proof"), filed for the above referenced water right permit. I find that condition no. 6 of this permit has not been complied with. The proof form you submitted is considered incomplete until you have complied with condition no.6 listed on this permit.

Condition no. 6 of this permit which states:

"Prior to or in connection with the proof of beneficial use statement to be submitted for municipal water use under this right, the right holder shall provide the department with documentation showing that the water supply system is being regulated by the Idaho Department of Environmental Quality as a public water supply and that it has been issued a public water supply number."

Enclosed is a copy of this permit for your reference. Please provide the required information in connection with proof submitted. Also, please reference the water right permit number when submitting the required information. **I will hold this matter for 15-days from the date of this letter, or until June 2, 2016 allowing you time to gather the required information.** It is important that you provide the required information to the Department by that date, as your permit lapsed and your proof statement was already 40 days late. The Department will not be able to accept the required information after the 60 day deadline which is June 6, 2016.

Please contact me at (208) 287-4945, if you have any questions.

Sincerely,

Darla Block
Technical Records Specialist
