Conditions of Approval:

- After specific notification of the Department, the right holder shall install a lockable device, subject to the approval of the Department, in

- a manner that will provide the watermaster suitable control of the diversion.
2. After specific notification of the Department, the right holder shall provide a means acceptable to the department to measure the amount of water entering the reservoir and the amount of water released from the reservoir.
3. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 63.
4. 219 Right 63-33643 authorizes total annual storage volume of 13.0 acre-feet, 5.1 acre-feet to be used for the initial filling or carryover storage of the pond and 7.9 acre-feet for the replacement of losses caused by seepage and evaporation.
5. 220 The one (1) pond established by the storage of water under this right shall not exceed a total capacity of 5.1 acre-feet or a total surface area of 1.7 acres.
6. 121 The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
7. 176 The waste water diverted under this right is subject to the right of the original appropriator, in good faith and in compliance with state laws governing changes in use and/or expansion of water rights, to cease wasting water, to change the place of use or manner of wasting it, or to recapture it.
8. Wildlife storage is for wildlife ponds created as part of an Idaho Fish and Game habitat improvement project.
9. This right shall be junior and subordinate to future water rights authorizing the diversion and use of water from the Boise River and its tributaries, including ground water, for consumptive uses, except that this right shall not be subordinate to future water rights for similar wildlife, recreation and/or aesthetic uses.
10. This right shall be junior and subordinate to future minimum in-stream flow water rights that may be established for the Boise River and its tributaries.
