MEMORANDUM

Date: May 11, 2016
To: Transfer 80641 File
From: Corey Skinner
Re: Evaluation of Sufficiency of Information Submitted

Application proposes adding an additional point of diversion to right 37-1233, a 3.2 cfs Soldier Creek water right, that is used to irrigate 153 acres within a 187 acre permissible place of use on property located west of Soldier Road approximately 4.9 – 5.9 miles north of Fairfield. Note that partially overlapping right 37-855, diverted from Sampson Creek, allows for the potential irrigation of the rest of the 187 acre permissible place of use (both rights limited to a combined 187 acres of irrigation). The application proposes adding a second authorized point of diversion from Soldier Creek to be located approximately 5.25 miles north and 0.4 miles west of Fairfield. The new point of diversion will be located approximately 0.7 miles downstream of the currently authorized point of diversion. An application has been filed to place the majority of right 37-1233 in the water supply bank, while leaving a portion of the right out of the bank for use by the owner. Note that as the date of this memo, the right has not yet been formally accepted into the bank. The new point of diversion will allow for easier irrigation of the portion of the right that will not be placed in the bank. Note that the transfer proposes adding the new point of diversion to the entire portion of right 37-1233 (even the portion to be placed in the bank). Note that right 37-1233 is diverted within water district 37B, so water master comments will be solicited.

- **Authority to File:**
The transfer applicant, Bundy Youth Ranch, is listed as the current owner of the right involved with the transfer. IDSOS information indicates that the person who signed the application can sign on behalf of the applicant.
- **Water Right Validity:**
The right involved with the transfer was decreed in the SRBA in September 2010. Possible forfeiture of the right does not appear to be an issue.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated. The application will be subject to public notice and protest.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on Economy of the Local Area:**
None anticipated.
- **Effect of the Agricultural Base of the Local Area:**
None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

MEMORANDUM

TO: Transfer # 80641 File

FROM: Corey Skinner

DATE: May 9, 2016

SUBJECT: Filing Fee

The filing fee, \$740.00, for this transfer is based on the total amount of water being transferred, 3.2 cfs. The transfer fee schedule for a transfer involving 3.01 – 4.00 cfs indicates that the filing fee is \$740.00. Note that \$500.00 was paid when the transfer was originally filed in March (receipt # S035353) and the rest of the fee, \$240.00, was paid on April 28 (receipt # S035424).
