WATER RESOURCES
WESTERN REGION

AMENDED

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of IdahoIdent. No. 63-33864**AMENDED**1. Name of applicant(s) Gardner Mace Ranch LC Phone 208-246-8909
Name connector (check one): ☐ and ☐ or ☐ and/orMailing address: 101 S. Capitol Blvd, Suite 1201, Boise, ID 83702 City BoiseState ID _____ Zip 83701 Email: _____2. Source of water supply Ground Water which is a tributary of Boise River

3. Location of point(s) of diversion: (pond centroids - more attached)

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
4N	1E	17	2		SW	NE	Ada	Ground Water	Pond 1
		17	2		SW	NE	Ada	Ground Water	Pond 2
		17	2		SW	NE	Ada	Ground Water	Pond 3
		17			NE	NW	Ada	Ground Water	Pond 4

4. Water will be used for the following purposes:

Amount 397.5 for Aesthetic Storage purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)Amount 397.5 for Recreation Storage purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)5. Total quantity to be appropriated is (a) _____ cubic feet per second (cfs) and/or (b) 397.5 acre-feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. Twelve ponds. See attached for details.b. Height of storage dam n/a feet; active reservoir capacity 341 acre-feet; total reservoir capacity 341 acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11.For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☒ No

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No

e. If well is already drilled, when? _____; drilling firm _____;

Well was drilled for (well owner) _____; Drilling Permit No. _____

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. _____

b. Stockwatering; list number and kind of livestock. _____

c. Municipal; show name of municipality or the applicant's qualifications as a municipal provider. _____

d. Domestic; show number of households _____

e. Other; describe fully. Aesthetic and recreation storage for Mace River Ranch Subdivision

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
4N	1E	17	A/R	A/R	A/R	A/R	A/R	A/R	A/R	A/R									
			L1	L2	L2	L1			L4	L3									
		18				AR													
						L1													

Total number of acres to be irrigated: _____

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? None

10. a. Who owns the property at the point of diversion? Applicant
- b. Who owns the land to be irrigated or place of use? Applicant
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____
11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. Evaporation: the attached ET Idaho data for shallow ponds in the Boise area indicates approximately 56.5 ac-ft evaporation will result from the ponds. Due to the proximity of the ponds to the Boise River and high ground water levels, seepage is not a factor. Proposed volume includes 341 ac-ft total pond volume plus 56.5 ac-ft evaporation. Mitigation: sufficient acres will be retired from irrigation under water right 63-216A to offset ground water consumptive use (evaporation) resulting from the ponds as proposed on the accompanying transfer application. Pond depths range from 17 to 37 ft.
12. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

		17	4		SW	NW	Ada	Ground Water	Pond 9

4. Water will be used for the following purposes:

Amount 377.4 for Aesthetic Storage purposes from 1/1 to 12/31 (both dates inclusive)
 (cfs or acre-feet per year)

Amount 377.4 for Recreation Storage purposes from 1/1 to 12/31 (both dates inclusive)
 (cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)

5. Total quantity to be appropriated is (a) _____ cubic feet per second (cfs) and/or (b) 376.1 acre-feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. Eleven ponds. See attached for details.

b. Height of storage dam n/a feet; active reservoir capacity 326 acre-feet; total reservoir capacity 326 acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11.

For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☒ No

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No

e. If well is already drilled, when? _____; drilling firm _____;
 Well was drilled for (well owner) _____; Drilling Permit No. _____

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. _____

b. Stockwatering; list number and kind of livestock. _____

c. Municipal; show name of municipality or the applicant's qualifications as a municipal provider. _____

d. Domestic; show number of households _____

e. Other; describe fully. Aesthetic and recreation storage for Mace River Ranch Subdivision

* SEE 6/8/15 AMENDED

8. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

Application for Permit No. 63-33864
Application for Transfer No. 78885
Water Right No(s). 63-182, 63-216A

Dear Applicant(s):

The Department of Water Resources has received your water right applications. Please refer to the numbers referenced above in all future correspondence regarding these applications.

A legal notice of each application has been prepared and is scheduled for publication in the IDAHO STATESMAN on 5/19/2016 and 5/26/2016. Protests to either application may be submitted for a period ending ten (10) days after the second publication.

If either application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If either application is not protested, the Department will process your application and notify you of any action taken on the application. If either application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding these applications.

Sincerely,

Rachel Neely
Administrative Assistant

Water bearing zone to be appropriated is from 0 to 37 feet.

**NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 78885**

GARDNER MACE RANCH LC, 101 S CAPITOL BLVD STE 1201, BOISE, ID 83702; has filed Application No. 78885 for changes to the following water rights within ADA County(s): Right No(s). 63-182, 63-216A; to see a full description of these rights and the proposed transfer, please see www.idwr.idaho.gov/apps/wr/QueryNewTransfers/QueryNewTransfers.aspx. The purpose of the transfer is to change a portion of the above rights as follows: The place of use for both rights will be changed to allow 146 acres of irrigation within the 183 acre boundary of the Mace River Ranch subdivision in Eagle, ID, near the intersection of Eagle Rd and Hwy 44. Also proposed is for both rights to utilize either of the same two points of diversion, known locally as the Conway-Hamming and Mace-Mace ditches, from the Boise River. Additionally, a 24 acre portion of right no. 63-216A will be changed from irrigation use to storage purposes to mitigate for evaporative losses from twelve new ponds proposed by application for permit no. 63-33864.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at 208-334-2190; or for a full description of the right(s) or proposed transfer (s) please see www.idwr.idaho.gov/WaterManagement/WaterRights. Protests may be submitted based on the criteria of Idaho Code §§ 42-203A and 42-222. Any protest against the approval of the application(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 6/6/2016. The protestant must also send a copy of the protest to the applicant.

RE: Application for Permit No. 63-33864 & Applications for Transfer Nos. 78885 and 80380

Application for Transfer No. 78885 is mitigating from the evaporative losses from the ponds Application for Permit No. 63-33864 purposes.

Dear Watermaster:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right applications. Copies of the applications are enclosed with this email for your reference. Please review the applications, complete a recommendation form, and submit your reply, if any, to this office by June 6, 2016.

IDWR will assume you do not object to these applications if a timely response is not received. Please contact me if you have any questions in this matter. Thank you for your help.

Sincerely,

Rachel Neely

**Subject: Amendment of Transfer Application No. 78885
Amendment of Application for Permit No. 63-33864**

Dear Angie,

Enclosed on behalf of Gardner Mace Ranch, LC, is (1) an Amendment of Transfer Application No. 7885 and (2) an Amendment of Application for Permit No. 63-33864. Both applications were submitted in October, 2013 and are waiting to be processed. The amendments account for a little more pond area than originally proposed, however the increased amounts are not significant enough to require additional fees.

Thank you very much for your consideration and assistance in this matter. Please call me if you have any questions.

Sincerely,

Scott King
Supervising Engineer

Subject: Gardner Mace Ranch LC applications for Permit and Transfer

Enclosed on behalf of Gardner Mace Ranch LC please find applications for Permit and Transfer associated with a property located near Eagle, Idaho. The permit application proposes development of aesthetic and recreation storage in a system of eleven ponds. The ponds will intercept shallow ground water with depths ranging approximately from 10 to 42 feet. Total anticipated pond surface area is 22.5 acres.

The Transfer application changes two water rights appurtenant to the property. A 22-acre portion of water right 63-216A is changed from irrigation to aesthetic and recreation storage. Because it is presumed that ground water in these shallow ponds is tributary to the Boise River above Star Bridge and that evaporation from the ponds could potentially reduce flows in the Boise River, this nature of use change provides the mitigation necessary to offset evaporative losses from pond surfaces required for approval of the permit application described above. The water balance provided in Transfer Attachment 8a is based on historic consumptive use of a field corn crop. I personally witnessed field corn on the property during a November 2012 site visit with Watermaster Rex Barrie.

The Transfer application proposes creating a 183-acre permissible place of use for water right 63-182 and the portion of 63-216A not changed to aesthetic and recreation storage as described above. These water rights will be used for residential lot and open-space irrigation of up to 148 acres within the proposed subdivision development.

The Transfer application also proposes changing and addition diversion points by listing both *existing* points of diversion to both rights. Water right 63-216A currently lists the Mace-Mace ditch diversion at T4N R1E Section 16 Lot 5 (NWSW). Upon transfer approval, this diversion will be authorized for both transferred rights. Water right 63-182 lists a diversion at T4N R1E Section 21 SENE and described as the

Conway-Hamming ditch. However, per my site visit with Rex Barrie and confirmed by review of IDWR's Water Rights Accounting mapping, the Conway-Hamming ditch is located at T4N R1E Section 21 Lot 2 (NWNE). It appears water right 63-182 incorrectly lists a diversion at Section 21 SENE. Upon transfer approval, the actual Conway-Hamming ditch will be authorized for both transferred rights

Also enclosed is a check for \$1,110 for the application fees, based on \$370 for the permit application and \$740 for the transfer application.

Please contact me if you have any questions.

Sincerely,

Scott N. King, P.E.
Supervising Engineer
