MEMORANDUM

Date: April 29, 2016

To: Transfer 80850

From: Michele Edl

Re: Review & Evaluation of Sufficiency of Information

Authority to File: According to available Lemhi County tax lot information, the POU is owned by William M Young.

Water right 74-7363 is in the name of Michelle M Young and William Young. Both right holders signed the application.

Both the current and the proposed PODs are on BLM land. Although the applicants do not have an easement for their current POD, they have approached local BLM representatives seeking a special use permit for construction of a new diversion

Water Right Validity: License 74-7363 was issued for domestic and stockwater uses on October 5, 2015. The home is visible in contemporary aerial photography. Continued stockwater use is presumed. Forfeiture is not an issue.

Injury to Other Water Rights: The current POD is shared by water right 74-1074 which is owned by Guardian Ltd Partnership No. 2. According to the applicant, Guardian Ltd Partnership No. 2 is constructing a pipeline to convey water right 74-1074 to their POU and construction of that pipeline means that the current POD will no longer be available to the applicant. Guardian's right 74-1074 is the senior water right at the current POD. The proposed new POD for Young will be approximately 1/4 mile upstream on Meadow Creek. The Young diversion will be moving from the NWNE to the SENE in section 23. Because the new POD will be located upstream, there is a potential for injury to the senior right. Guardian Ltd Partnership No. 2 will be notified of this transfer.

There are no other diversions from Meadow Creek between the proposed POD and the current POD. However, the BLM holds a decreed instream stockwater right (74-14214) whose POU overlaps the proposed POD, the current POD and the land in between.

Water right 74-7363 is within the Wild & Scenic Watershed for the Salmon River and the watershed for the minimum streamflow right 74-14993. This application will be subject to scrutiny by other agencies.
