RE: Water Appropriation Permit 95-16972

Request for Information

Dear Permit Holder:

In 2016 the Idaho Department of Water Resources (IDWR) issued permit 95-16972 authorizing the development of a right to divert 0.08 cfs of water from an Unnamed Stream within SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 18, Township 54 North, Range 04 West, B.M., for irrigation and stockwater uses.

The final step in the water appropriation process is the issuance of a Water Right License.

In an attempt to expedite the licensing process, IDWR would like for you to provide the following information regarding your permit:

- Please provide evidence of a $\frac{1}{4}$ mesh fish screen installed and maintained at the Point of Diversion.
 - This is a condition of permit 95-16972.
 - If using a closed ended perforated pipe, please describe the system including the size of the perforations. Photographs would be appreciated.

Please provide the information requested by May 27, 2016.

Please mail the information to IDWR, C/O Danielle Favreau, to the address on at the top of this letter. If you would like, you could email the information to Danielle.Favreau@idwr.idaho.gov.

If you have any questions regarding proof of beneficial use, please contact Dan Nelson at 208-287-4800.

By issuing a license, IDWR recognizes that you have met the requirements for establishing a water right. If you have not developed a beneficial use of water from an Unnamed Stream within the development period authorized by your permit a license cannot be issued. Once the development period authorized by your permit expires, your permit cannot be retained to cover future development of the resource.

Respectfully,

Danielle Favreau
GIS Analyst
