Gary Spackman
Director
Dept. of Water Resources, Northern Region
7600 Mineral Drive Suite 100
Coeur d'Alene, ID. 83815

Dear Gary Spackman:

This letter is to protest the application for water rights #96-9611 filed on 04/04/2016. The reason for this protest is due to insufficient flow in Cougar Creek from July through September to support any additional use. Cougar Creek went underground on August 4th of last year and we had to severely limit our water use until late September. I believe this or any other applications for water use on Cougar Creek above my diversion will impact my prior right.

Water Right No. 96-08257 dated June 20, 1983.

Sincerely,

Jeffrey Pennick
