RE: Expiration of Water Supply Bank Rental Agreement for water rights: 22-7336, 31-7128

Renter,

This letter is to inform you that your rental agreement(s) to rent the above listed water rights from the Water Supply Bank (Bank) expired at the end of 2016.

Once the rental agreement concludes, any diversion or use of water under the rental agreement will no longer be authorized and, if occurring, may be subject to an enforcement action.

If you wish to rent water in the future, please download a rental application from: <http://idwr.idaho.gov>. You may submit rental applications on November 1 of the year prior to the intended use of rental water. **YOU ARE ENCOURAGED TO FILE AN APPLICATION AT LEAST 3 MONTHS PRIOR TO THE DATE YOU DESIRE TO USE RENTAL WATER.**

If you have any questions about this matter, please contact me at (208) 287-4918.

Sincerely,

A handwritten signature in black ink, appearing to read 'RB', followed by a horizontal line.

Remington Buyer
Water Supply Bank Coordinator

Enclosures:

RECEIVED**APR 28 2016****DEPARTMENT OF
WATER RESOURCES****STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES****WATER SUPPLY BANK RENTAL AGREEMENT**

This is to certify that: **DAVE SANDERS**
2473 E 2100 N
HAMER ID 83425
208-662-5437

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right	Priority Date	Source	Tributary	Rented Rate	Annual Rented Volume	Total Rented Acres
22-7336	10/22/1980	Ground Water	NA	0.40 cfs	69.5 af	19.9 ac
31-7128	7/30/1974	Ground Water	NA	0.20 cfs	63.5 af	18.1 ac
Total Annual Combined Limit				0.60 cfs	133.0 af*	38.0 ac*

Annual Combined Rental Totals**0.60 cfs 133.0 af* 38.0 ac***

***This rental is limited to the 34.8 acres and 121.8 af.**

Term of Rental: This rental is in effect from the day the Idaho Water Resource Board signs the rental agreement and shall be in effect until December 31, 2016.

Rental Fee: \$2,261.00

The fee for rental of the above-described water is \$2,261.00 per year. Ten percent (\$226.10) will be retained by the Department to offset administrative costs, and the remainder will be paid to the lessor(s).

No administrative fees will be refunded once the fee is collected.

Detailed water right conditions are attached.

CONDITIONS APPLICABLE TO ALL RENTED WATER RIGHTS

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any pending permanent transfer applications that the renter has filed to modify other water rights for irrigation of the subject lands nor shall it prejudice any future rental agreement that may be made of the subject water right after this rental agreement expires.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

11. The renter shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
12. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
13. The water rented under this agreement is appurtenant to irrigation of 34.8 acres.
14. This rental agreement does not authorize the construction of a well.
15. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
16. Use of water under this agreement will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 110.
17. The following rights are diverted through point(s) of diversion described above: 31-7318, 31-12193, 31-12195, 31-12196, 31-12197, 31-12198, and 31-12199.

APPLICATION TO RENT WATER FROM THE BOARD'S WATER SUPPLY BANK

Applicant Name: Dave Sanders

Is this application being submitted with a lease application as a lease/rental package?

Yes ☐ No ☒

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it Attachment 2.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them Attachment 3A:

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
0.60 CFS	133.0 AF	0.60 CFS	133.0 AF	34.8 AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
April 5, 2016	May 1, 2016	☒ 1	☐ 2	☐ 3	☐ 4	☐ 5	☒ Process application as soon as possible	☐ Return application to applicant

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

FEB 29 2016

DEPARTMENT OF
WATER RESOURCES

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):
Two wells mainlines to laterals with sprinklers

- E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
Pump	Ground water	

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

- F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☒
If yes, include documented consent as Attachment 3F.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☒ No ☐
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request? Yes ☒ N/A ☐
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

- ☒ Irrigation 34.8 (number of acres) Duration: Subject to IDWR standard seasons of use
☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒
If yes, justify the rate of flow and attach any supporting documents as Attachment 3J. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it Attachment 3K.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:

DEPARTMENT OF
WATER RESOURCES

Yes ☒ No ☐

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
31-7128	Commercial	0.20	64.1			0.20	63.5	14.9
22-7336	Irrigation	0.40	69.5	19.9		0.40	69.5	19.9
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.60	133.0	34.8
						CFS	AF	AC

*Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it Attachment 4B:

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☒ No ☐

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it Attachment 4C:

22-7336 Provides 0.40 cfs, 69.5 afa & 19.9 ac. 31-7128 can provide 0.20 cfs, 63.5 afa and an additional 14.9 ac for a total of 34.8 ac, 0.60 cfs & 133.0 afa

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☐ No ☒

If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:
Water rights 31-7316, 31-10964A & 31-7267A have been used. Applicant is seeking water rights to purchase that the ESPA Analysis Spreadsheet would allow the transfer to his place of use.

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒
If yes, describe:

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☒
If yes, describe the date and location of the NOV.

- D. Additional Information

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

**RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NOS. 22-7336 and 31-7128**

Dear Renter:

Please find enclosed a receipt in the amount of **\$2,261.00** and a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of 133.0 acre-feet of water for irrigation of 38.0 acres during 2016. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Pursuant to the Water Supply Bank Rules, 90% or \$2,034.90 of the rental fee will be paid to the lessor(s) and 10% or \$226.10 will be retained by the Department to offset administrative costs.

If you have any questions, please contact me at (208) 287-4933.

Sincerely,

 Steve Visosky
Water Resource Agent

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NOS. 22-7336 and 31-7128**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$2,261.00 was calculated based on the current rental rate of \$17.00 per acre-foot times a diversion volume of 133.0 acre-feet.

Please send a check for \$2,261.00 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing. Pursuant to the Water Supply Bank Rules, 90% or \$2,034.90 of the rental fee will be paid to the lessor(s) and 10% or \$226.10 will be retained by the Department to offset administrative costs.

If you have any questions, please contact me at (208) 287-4933.

Sincerely,

for Steve Visosky
Water Resource Agent

Subject: Water Supply Bank comment for Sanders rental

Dear James,

I am processing the rental proposal for Dave Sanders and the 2016 irrigation season. Attached is my memo and map for your reference. The modeling of the two leased rights confirmed that no mitigation was required. Do you have any concerns of feedback in regards to this rental proposal?

Thanks,

Steven Visosky

MEMORANDUM

To: Water Right(s) 22-7336 and 31-7128
From: Steven Visosky
Date: April 18, 2016
Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: The Department received this application on 2/29/16 to rent 0.70 cfs and 121.8 AF to irrigate 34.8 acres. The rental request is for 1 year and the applicant specifically requested the rental of water right 31-7489. As the original requested right (31-7489) has a low diversion rate, a conversation with representative Keith Wilson confirmed that the cost of the rental with water right 31-7489 would be too expensive.

An amended application and ESPA modeling requesting two new water rights (22-7336 and 31-7128) was submitted on 4/12/16. The amended application changed the rental request to 0.60 cfs, 133.0 AF for the same 34.8 acres.

AUTHORITY TO FILE: The application was signed by Dave Sanders. Representative Keith Wilson from Rocky Mountain Environmental Assoc. Ibnc submitted the application on behalf of the applicant. Keith Wilson was contacted on 3/25/2016 regarding the authority of Dave Sanders to use the place of use (POU) owned by the Sanders Family Partnership as it was not listed with the Idaho S.O.S. Documentation submitted on 3-26-16 confirmed that David Sanders was a general partner of Sanders Partnership and the Partnership has changed names to Sanders Family LLLP with David Sanders maintaining his role as a general partner.

WATER RIGHT VALIDITY: Water Right 22-7336 is a decreed ground water right that has been leased to the water supply bank (WSB) since 2010. It has not been used at the authorized POUs, which are now within the municipal service area for the City of Rexburg. A review of aerial photography of those POUs shows that the water right has been idled at that location.

Water right 31-7128 is also a decreed ground water right that is currently leased into the WSB until 12-31-16. WMIS records indicate that water was diverted from the point of diversion (POD) in 2009 and the right was put into the WSB in 2015 so forfeiture is not a concern. WMIS records also confirm that no usage was reported in 2015 during the first of the two year lease agreement for this right.

INJURY TO OTHER WATER RIGHTS: ESPA modeling was required for this rental and was submitted by Representative Keith Wilson. Modeling was verified by the Department utilizing the two requested rights confirmed no mitigation is required.

ENLARGEMENT OF USE: In order to prevent an enlargement, WMIS records were used to determine the actual amount of water pumped from the shared POD of water right 31-7128. It was determined that a sufficient amount of water was pumped to cover the amount of water being requested in the rental before the potato processing plant closed. Further review of WMIS records along with guidance from Transfer Processing memo #24 will be required to determine the remaining volume available of leased right 31-7489 that shares the POD with water right 31-7128.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: This rental proposal does change the beneficial use of water right 31-7128 from commercial and domestic to irrigation. Water used for commercial purposes under this right was first used for commercial purposes and then was applied as wastewater for irrigation purposes to satisfy water quality requirements. Since the wastewater was being applied for irrigation purposes, the commercial use would have the same fully consumptive value as the proposed rental irrigation use. The domestic volume associated with 31-7128 (0.6AF) was removed from the amount of water available to rent from the right.

The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: Leased water right 22-7336 is not subject to a Water District. Leased water right 31-7128 is in the same Water District as the rental.

The location of the rental POD is Water District #110 Mud Lake Area. The watermaster of WD#110 and the Eastern Regional office of IDWR (same contact - James Cefalo) will be contacted for comment on this rental.

Leased water right 31-7128 will be totally consumed with this rental agreement. Water right 22-7336 will also be totally consumed with this rental however the rental is only for one year and the right has been leased until 12-2020. The amounts used in this lease (0.40 cfs, 69.5 AF, and 19.86 acres) will be available starting in the 2017 season.

Sanders Family Partnership – Plan of Conversion

1. Effective Date

This Plan of Conversion is signed on August 9, 2012. This Plan of Conversion is effective upon filing with the Idaho Secretary of State.

2. Definitions

Sanders Family Partnership: Sanders Family Partnership is an Idaho General Partnership located in Hamer, ID 83425.

Converting Entity: Sanders Family Partnership.

Converted Entity: Sanders Family LLLP, an Idaho limited liability limited partnership.

3. Background

The Converting Entity started doing business on January 2, 1980. The sole partners are:

Reese Sanders

David B. Sanders

The partners of the Converting Entity desire to convert the General Partnership to a limited liability limited partnership. This Plan of Conversion therefore converts the General Partnership to a limited liability limited partnership and changes the name of the entity to Sanders Family LLLP.

4. Conversion to LLLP

The provisions of this document are adopted by the Converting Entity as a Plan of Conversion under Idaho Code § 30-18-401 and 402. Under this plan Sanders Family Partnership will become a limited liability limited partnership having the name Sanders Family LLLP.

5. Conversion of capital structure

The sole partners of the Converting Entity were Reese Sanders and David B. Sanders. After the conversion Reese Sanders and David B. Sanders will be the only General Partners and only Limited Partners of the Converted Entity.

The primary purpose of the Converting Entity was farming. The primary purpose of the Converted Entity is to conduct all lawful business including farming.

The capital structure of the Converted Entity after the conversion will be based on the capital structure of the Converting Entity just prior to the conversion.

6. Public Organic Document

No documents were originally filed with the Idaho Secretary of State to form the Converting Entity.

Attached to this Plan of Conversion is an unsigned Certificate of Limited Partnership showing the relevant information for the Converted Entity.

7. Private Organic Rules

At the conversion the Converted Entity shall be governed by a new Limited Partnership Agreement dated the same date as this Plan of Conversion. The new Limited Partnership Agreement has been signed and is effective upon the filing of this Plan of Conversion. It is not attached to this Plan of Conversion.

The initial General Partners of the converted entity are the following persons:

Reese Sanders

David B. Sanders

Reese Sanders and David B. Sanders shall each have a 1% general partner interest in the Converted Entity.

The Initial Limited Partners of the Converted Entity will not have an equal limited partnership interest. The names of the initial Limited Partners are the following persons:

Reese Sanders

David B. Sanders

7. Adoption

This Plan of Conversion is adopted by unanimous consent of all the Partners of the Converting Entity. That unanimous consent is evidenced by the following signatures approving this Plan of Conversion:

Reese Sanders, General Partner

David B. Sanders, General Partner

CERTIFICATE OF LIMITED PARTNERSHIP

(Instructions on back of application)

Subject: Dave Sanders Rental application request

Dear Keith Wilson,

I have been assigned to the rental application you submitted for Dave Sanders.

As part of the processing checklist, we need to verify the authorization from the owner of rental property place of use and point of diversion. According to 4/17/15 information from Jefferson County, the taxlots associated with the place of use and the point of diversion are owned by Sanders Family Partnership. I attempted to verify with the Idaho Secretary of State the relationship of Dave Sanders with the Sanders Family Partnership however I was unable to locate the Partnership.

Could you please provide some verification that Dave Sanders has the authorization to represent the Sanders Family Partnership.
