CONDITIONS APPLICABLE TO ALL RENTED WATER RIGHTS

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. The renter must diligently pursue a permanent water right to provide for the uses authorized under this rental agreement.
11. Commercial use is for a water bottling plant.
12. In the event that continued water use is not authorized, the renter agrees to hold the Board, the Director and the state of Idaho harmless from any claim for reimbursement or expenses associated with the development of new and supplemental water uses.

13. Future rentals for the use authorized under this agreement may be subject to further review and notice requirements.
14. Future rentals for the purpose authorized under this agreement may require review of historic beneficial use associated with the water right rented to determine the consumptive volume of water available.

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☐ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)

Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL			
						CFS	AF	AC

*Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it Attachment 4B:

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it Attachment 4C:

MEMORANDUM

To: Water Right(s) 51-4037
From: Sandra Thiel
Date: March 28, 2016
Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: The Department received an application to rent water for commercial use on March 9, 2016. Purity Sweet Inc. is both the lessor and renter. Purity Sweet leased Murphy Hot Springs commercial right. The Bank database gives the lease release date as 12/31/2017. Under the status comments it says the lease was extended through 2017 at the direction of Shelley Keen. The rental application states that 'Bottled Water' is the nature of commercial use.

According to a previous review memo by Monica Van Bussum in September 2010, the commercial use was originally identified as non-consumptive for pools and baths. Since that time, Purity Sweet has operated a water bottling factory. The Bank activity has served as a legal vehicle for this change in consumptive use while a transfer was in the works. For the Bank Chronology please see Patrick Kelly' review memo dated February 13, 2015.

At the time of this review, transfer 78340 is under processing at Western Region. I spoke with Angie Grimm to check the status and found that Western is holding the application for further information. It is worth noting that the proof report includes comments about the history of this water right. Given that history it seems the Bank is an appropriate temporary solution for the change in nature of use until a permanent solution can be reached through a transfer.

AUTHORITY TO FILE: Mathew Olivas signed the rental application. Purity Sweet's annual report on the Secretary of State website lists Mr. Olivas is the president (see attachment). According to the tax lot data Purity Sweet owns the land at the place of use.

WATER RIGHT VALIDITY: Right 51-4037 was decreed in 2003. It has been leased into the bank for commercial use for a rate of 0.02 cfs since 2013.

INJURY TO OTHER WATER RIGHTS: This rental has been approved on an annual basis since 2010 with no injury reported. No injury is apparent.

ENLARGEMENT OF USE: The recommended volume of 0.5 af in previous rental agreements seem reasonable for the proposed commercial use. The volume identified is less than the 0.6 af allowed by standard in-home domestic use.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The rented right is not subject to a Water District. Western Region had no immediate concerns about this transaction.

Interesting! Think I should probably dig a little deeper into the history of these apps, it's nice to see some of the happenings are pretty well documented though. I don't see any action happening in the near future, but perhaps before this rental app comes up again next year I'll have a more definitive answer for you regarding the status. Sound good?

Hello, I should have read the comments on the proof report. Mat Weaver included a memo of understanding. While it does not specifically mention the bank in the MOU it sounds like the current arrangement might be working for all parties.
