RE: Revised Licensing Amendment for Right 94-7445

Dear Right Holders:

A recent review of our records found that an error occurred during the licensing of your Right 94-7445. The Application for Amendment for licensing purposes (amendment) and the resulting license did not reflect the findings of the field examiner or accomplish any changes to the elements of the permit by incorrectly identifying the location of the place of use.

The permit listed the place of use for both domestic and irrigation use as being located within SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 25, Township 50 North, Range **01** East, B.M. The field examiner determined the place of use to be within SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 25, Township 50 North, Range **04** East, B.M. and recommended an amendment to correct the place of use as part of the licensing process. The amendment submitted by you and approved by the department inadvertently did not include this correction.

I am enclosing a revised licensing amendment for your consideration with the corrected place of use description as determined by the field examiner. I have also enclosed a layout showing the place of use for your right as described in our GIS database at the corrected location.

Please have all right holders sign the revised amendment to correct the place of use and return it to me. The place of use description is the only proposed change. The amendment fee was paid with the initial amendment and no further fees are required.

When the signed revised amendment is received, I will pursue the necessary steps to correct the licensed place of use. If you have any questions, please contact me by phone at (208) 287-4951 or by email at pam.skaggs@idwr.idaho.gov.

Sincerely,

Pamela S. Skaggs
Water Rights Supervisor
