To: Whomever at Water Resources,

I have been looking over our documents pertaining to our water rights and I noticed that the priority date on the Water Right Analysis Form and the Water Rights FD11 Report clearly state that the priority date for 78-4003 goes back to 6-15-1919. Some of our current information indicates a priority date of 6-15-1949. It appears that the "1" in 19 was misread or keyed in as a "4" thus changing the priority date from 1919 to 1949.

Whatever the reason the change happened. Please review the documents that I have enclosed for water rights number 78-4003 and note the correct priority date of 6-15-1919 so that it is reflected in our current water right documents.

Thank you for your prompt attention into this important matter of our priority date.

Our Regards,

Joel Chambliss
