IDWR/NORTHERN

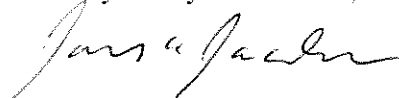

To the local Idaho State Dept. of Water Resources
7600 Mineral Drive, Suite 100
Coeur d'Alene, Id 83815

Dear Sir or Madam,

I was recently given the task of dealing with the finances for the above mentioned water association. I am therefore requesting the following information pursuant to the licensed Water Right Number 95-9439 which is the most current number I have. It was previously permit number 96-8924.

1. A current copy of the Association's permits or license.
2. Information on any permit fees past or presently due to the state.
3. An explanation of what exactly the permit allows in regard to water usage.
4. What are the legal implications of commercial usage in regard to an Association or individuals in violation of what the permit allows?
5. What enforcement action the State Water Resources Department would take against the Association or individuals in violation of the permit.
6. Any other information you may deem necessary and relevant to the Association.

Thank you for your assistance,

James Jacobsen

P.S. my Cell # is (208) 661-1092 if there are any questions.
