DEPARTMENT OF WATER RESOURCES
STATEMENT OF COMPLETION
FOR SUBMITTING PROOF OF BENEFICIAL USE

FOR OFFICE USE ONLY	
Amt. of Fee \$	50.00
Receipt No.	C101799
Received By	SKG
Date Received	4/5/16

The Idaho Department of Water Resources considers this form a statement by the permit holder(s) that development of a water right has been **completed** and that water has been applied to beneficial use to the extent described below. **This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner.** Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, contact any Department office or visit the Department's website at idwr.idaho.gov for an *Assignment of Permit* form. If you wish to relinquish your permit because you have not established the authorized use of the water and are not applying for an extension, please notify the Department in writing.

1. Permit No. 65-23440 Telephone No. 208-424-8812 8872

2. Name of Permit Holder(s) Hanging Valley Homeowners Association, Inc.

3. Mailing Address P. O. Box 2598 City Boise

State ID Zip 83701-2598 Email abosch@capitollawgroup.com

4. Source of Water Groundwater If **GROUND WATER** (well), Date Drilled mo. Sept / yr. 2010

Well Driller Coonse Well Drilling Drilling Permit Number _____

5. Extent of use(s) completed **as authorized by the water right permit:**

Domestic (No. of households) 17 Stockwater (No. and type of stock) _____

Irrigation (No. of acres) _____ Other future up to 35 households

6. Total rate of diversion or storage volume for which proof is submitted 0.15 cfs OR _____ acre-feet.

7. Compliance with a measuring device requirement, lockable controlling device requirement, and/or other conditions of permit:

Refer to the approval conditions on your permit and respond accordingly.

The Department will not issue a license if permit conditions are not met.

Measuring Device	Is a measuring device required?	Yes ☒	No ☐
	If yes, has the measuring device been installed?	Yes ☒	No ☐
Lockable Controlling Device	Is a lockable device required to control the diversion?	Yes ☐	No ☒
	If yes, has the lockable device been installed?	Yes ☐	No ☐
Fish Screen	Is a fish screen required?	Yes ☐	No ☒
	If yes, has the fish screen been installed?	Yes ☐	No ☐

Other Conditions of Permit

Do the approval conditions on your permit require you to submit additional information in connection with your proof of beneficial use? If yes, list the conditions below and attach documents with the required information.

annual report on usage, DEQ public water system documentation Completed? Yes ☒ No ☐

8. Fee Enclosed \$ 50.00 or not applicable ☐. See fee schedule on page 2 of the instructions.

Proof statements filed without an appropriate fee, will be considered incomplete.

9. Person to contact to accompany the Department representative during field examination of the water system.

Name Paul S. Kunz Telephone Number 336-2986

Mailing Address 4545 W. Samara Street City Boise

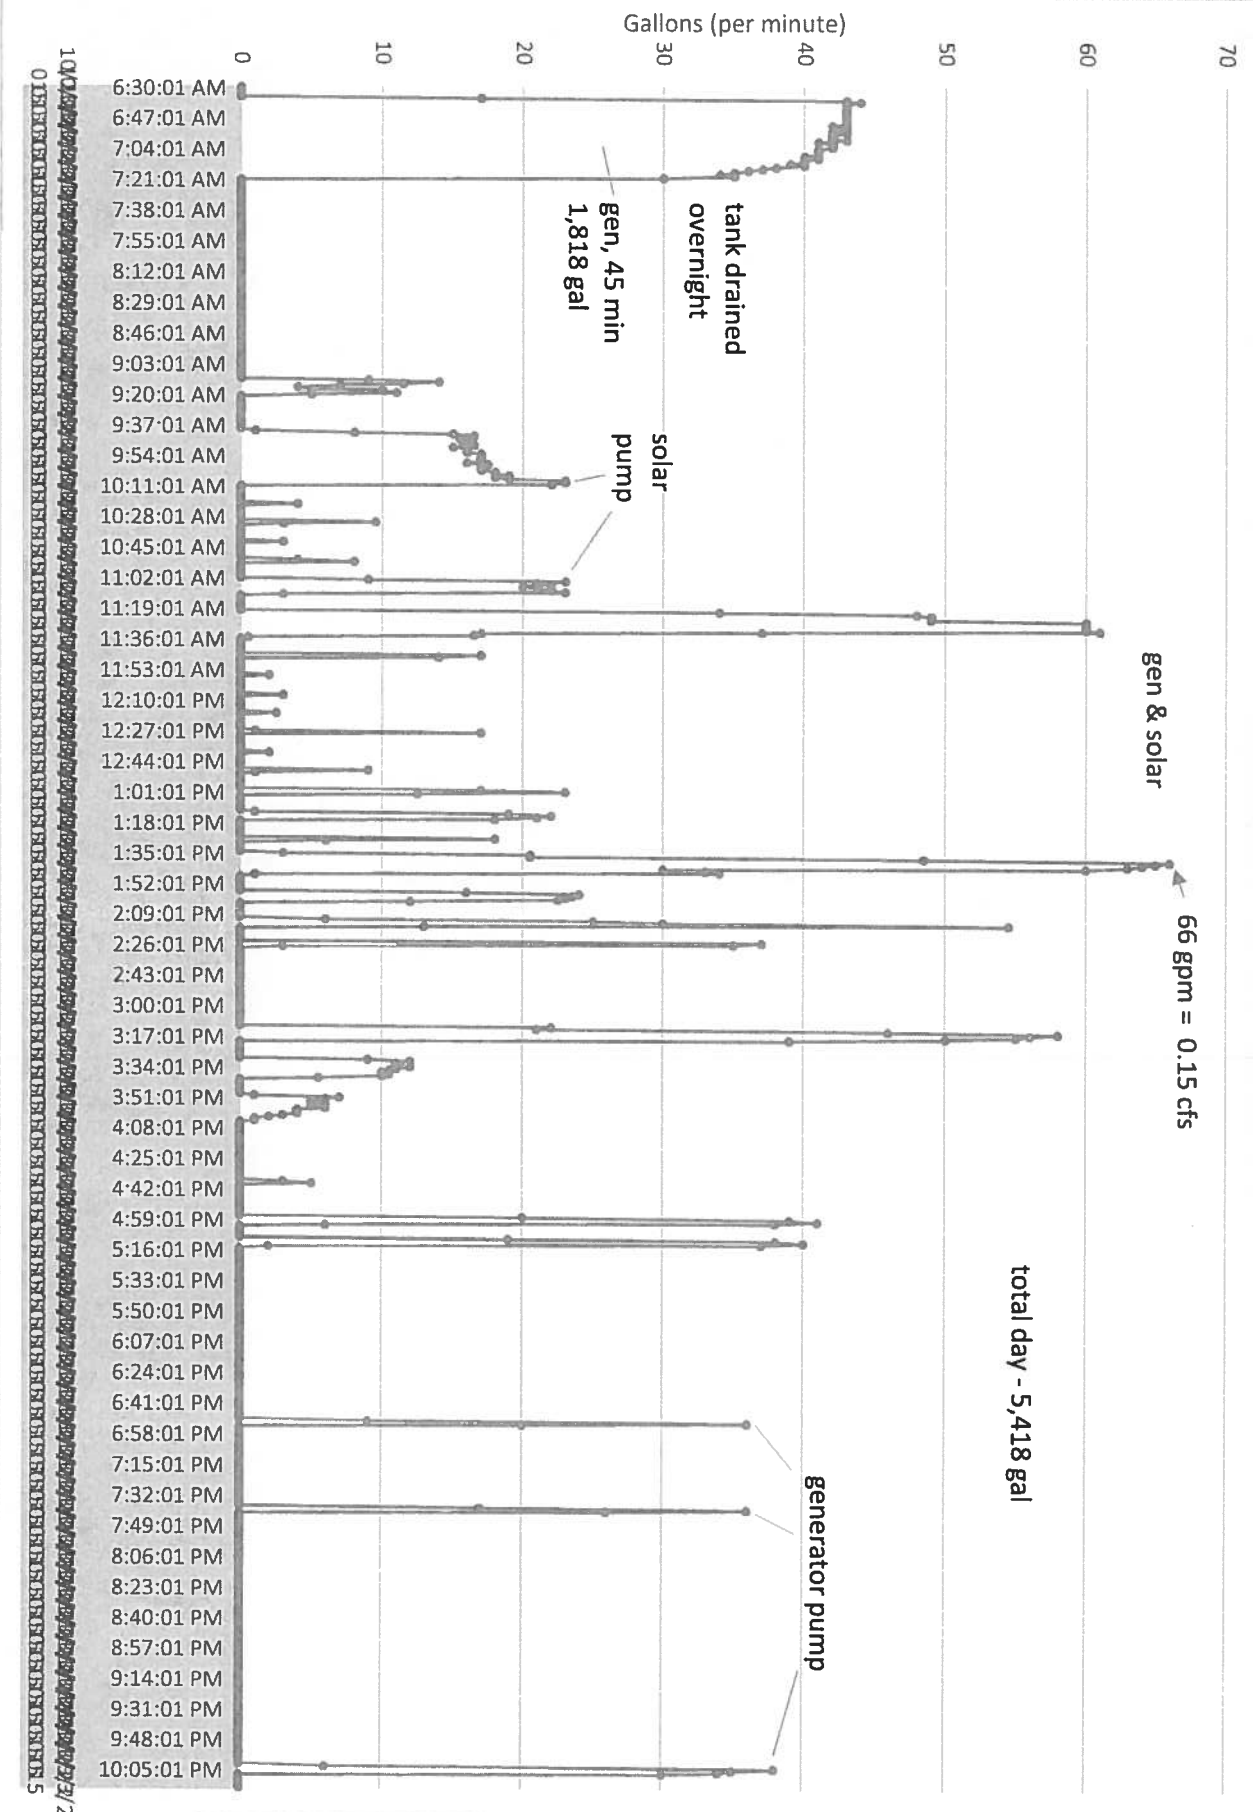

State ID Zip 83703 Email kunz@cableone.net

The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted and applied to a beneficial use. I understand that any undeveloped portion of the permit is relinquished to the State of Idaho.

RE: Hanging Valley Water System, PWS No. 4080109 (Boise County)
a. Final Approval of New Public Drinking Water System
b. Authorization to Serve the Public

Dear Mr. Kunz:

The Hanging Valley Homeowners Association public drinking water system is approved for operation, subject to the project specific conditions and comments. With this approval, the Department of Environmental Quality (DEQ) authorizes the use of this water system and Well #1 to serve drinking water to the public.

This system will be regulated by DEQ. Please contact Richard Lee at (208) 373-0550 to request a monitoring schedule.

The approval of this project is based in part on the DEQ issued waiver(s) dated September 16, 2013, of Idaho Rules for Public Drinking Water Systems (IDAPA 58.01.08) for tank setback, vault construction, and the system pressure. These waivers and all conditions are incorporated into this approval.

Please call me with any questions at (208)373-0184 or contact me via e-mail at kevin.ryan@deq.idaho.gov.

Sincerely,

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 65-23440

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Western Region Office of the Department located in Boise at (208) 334-2190.

Sincerely,

Darla Block
Technical Records Specialist

Subject: statement of completion - permit no. 65-23440

Darla,

As we just discussed, the Hanging Valley HOA wants to proceed with the Statement of Completion/Beneficial Use for the 0.15 cfs.

On the Completion Form I had a mistake in the phone number for the HOA listed on line 1. The correct phone No. is 208-424-8872, not 208-424-8812.

Thank-you for your and Dan Nelson's help regarding this matter.

**RE: Hanging Valley Homeowners Association, Inc.
Statement of Completion – Permit No. 65-23440**

Dear Sirs:

Attached is the Statement of Completion For Submitting Proof of Beneficial Use for Hanging Valley Homeowners Association's (HVHOA) water right under Permit No. 65-23440. Also attached is a check for the \$50.00 license fee.

Use of the well began on July 14, 2015 when the water system was disconnected from the surface water supply (65-23231) after the well pumps were installed. The primary well pump is a 2 HP solar pump with a capacity of 15 to 23 gallons per minute (gpm). A backup generator driven 3 HP pump has a capacity of 32 to 42 gpm. Both pumps can and have operated at the same time with a combined flow rate of 66 gpm or 0.15 cfs. The 0.15 cfs rate was used on the attached form. Attached is a graph of the pumping from the well on October 23, 2015. The graph shows pumping rates in gpm and includes both generator and solar pumping periods as well as times with both pumps running.

Currently there are 17 cabins connected to the water system with a possibility of 35 total cabins in the future. The potable water system was designed for the future number of cabins. Usage last year included irrigation use as we are preparing to lay new water lines for the surface water right. A two-inch flowmeter showing pumping rate and total gallons has been installed in a vault adjacent to the well. Total gallons pumped from July through December was 421,000 gallons. Although we did not take a reading of the flowmeter on December 31st, the flow was estimated utilizing a data logger which records pumping flows.

Also attached is a letter dated December 16, 2015 from the Idaho Department of Environmental Quality documenting the approval of the public water system, authorization to Serve the Public and our Public Water supply number 4080109.

If there are any questions, do not hesitate to call.

Sincerely,

Paul S. Kunz
