

**STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES**

**TRANSFER OF WATER RIGHT
TRANSFER NO. 80585**

This is to certify that: **DANDREW WINE LLC**
1910 FAIRVIEW AVE EAST
SUITE 400
SEATTLE, WA 98102

has requested a change to the water right(s) listed below. This change in water right(s) is authorized pursuant to the provisions of Section 42-222, Idaho Code. A summary of the changes is also listed below. The authorized change for each affected water right, including conditions of approval, is shown on the following pages of this document.

Summary of Water Rights Before the Proposed Changes

<u>Water Right</u>	<u>Origin/Basis</u>	<u>Priority Date</u>	<u>Diversion Rate</u>	<u>Diversion Volume</u>	<u>Acre Limit</u>	<u>Total Acres</u>	<u>Source</u>
63-11205	WR/LICENSE	2/28/1990	0.200 cfs	1.0 af	N/A	N/A	GROUND WATER
63-28919	WR/DECREED	7/1/1918	0.040 cfs	N/A	N/A	N/A	GROUND WATER

Purpose of Transfer (Changes Proposed)

<u>Current Number</u>	<u>Split</u>	<u>POD</u>	<u>POU</u>	<u>Add POD</u>	<u>Period of Use</u>	<u>Nature of Use</u>

Re: Transfer No: 80585
Water Right No(s): 63-11205, 63-28919

Transfer Approval Notice

Dear Water Right Holder <and other Interested Persons>:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208)334-2190.

Sincerely,

 *Nick Miller*

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Subject: RE: Well at St. Chapelle

Scott,

Thank you for the quick response! The only other thing that's come up so far is the need for a well permit upgrade fee. Well D0015085 was drilled as a domestic well in 2000 and is not currently associated with a water right. It appears this well was drilled under a domestic well permit, the fee for which is \$75.00 and use of which does not require water right authorization. Well permits for wells requiring water right authorizations are \$200.00. The proposed use of this well (both under the transfer application for existing rights and the new permit proposed use) requires a well permit with a \$200.00 fee. Per IDAPA 37.03.09.045.05.b, the Department must collect the difference in fee (\$125.00). \$125.00 should be submitted by the right holder and/or applicant to allow for further processing of the applications.

I'm still actively reviewing these applications so something else might come up, but in the interest of expediting per Norm's request, I thought I'd send this request as soon as I identified the need. Please let me know if you have any questions.

Regards,
Angie

Dandrew Wine LLC
Application for Permit

MEMORANDUM

TO: Transfer No. 80585

FROM: Angie Grimm

DATE: 3/31/2016

RE: Evaluation of Application

The transfer proposes combining three existing wells, and adding a new well to reflect all four wells as an integrated system for rights 63-11205 and 63-28919, change the nature of use for right 63-28919 from an exempt domestic use to an exempt commercial use, and reduce the overall diversion rate under 63-11205 to eliminate the combined use rate limitation with a separate right (63-8469). Application for permit 63-34179 proposes additional commercial use from the same system and is being processed simultaneously with this transfer application.

The site is the Ste. Chapelle Winery approximately 0.5 miles west of Hwy 55 approximately 2 miles north of Marsing.

Contact person for the applicant is Scott King, SPF Water Engineering LLC, based on meeting to discuss application prior to filing. The attorney for the applicant is Norm Semanko, Moffatt Thomas.

Summary of Information Submitted

Authority to File: The applicant (Dandrew Wine LLC) has an option to purchase the Ste. Chapelle Winery property (POD and POU property) from Sunny Slope Fruit Co. per Attachment 3a, a letter authorizing Dandrew Wine LLC to file the transfer and accompanying permit application. Sunny Slope Fruit Co. is the water right owner of record for right 63-28919. Right 63-11205 is currently in the name of Ste. Chapelle. Right 63-11205 was licensed in the name of Sunny Slope Fruit Co. in 1994. Transfer No. 5107 was filed in the name of Ste. Chapelle at the same address as Sunny Slope Fruit Co. in 1997. While Ste. Chapelle may have had authority to file the transfer application, there was no conveyance documentation submitted which conveyed right 63-11205 to Ste. Chapelle. It appears the right was inadvertently placed in the name of Ste. Chapelle during processing of Transfer No. 5107. Ownership of record for right 63-11205 will be corrected to Sunny Slope Fruit Co. during processing of this transfer considering the Department has not received conveyance documentation to support another ownership designation.

Water Right Validity: The partial decree for right 63-28919 was issued in 2000. Right 63-11205 was licensed in 1994. Recent beneficial use was confirmed via the application form stating the rights have not gone for a period of over 5 years of non-use. Also, Ste. Chapelle Winery is an active winery with commercial and domestic uses for winemaking and public events per their website www.stechapelle.com.

Injury to Other Water Rights: The nearest wells are approximately 1/4 mile north and east of the proposed PODs. Generally speaking, domestic wells (similar to proposed PODs) in this area

are approximately 150 to 250 feet deep and completed in fairly productive water bearing zones (yields ranging from 50 -100 gpm) per nearby well construction records. Construction of one new POD and use of existing wells as PODs in this area is not likely to cause injury to other water rights provided there is no enlargement in use.

Enlargement of Use: Diversion rate, diversion volume, and consumptive use volume of the rights is not proposed to be increased by this transfer application. Right 63-11205 currently has a combined use rate limitation with right 63-8469. Right 63-8469 authorizes diversion of water from the original system from which right 63-11205 was removed via approval of Transfer No. 5107. The applicant has agreed to decrease the authorized diversion rate of right 63-11205 to allow for removal of the combined limit condition, which is difficult to administer between two separate systems. This transfer will reduce the overall rate authorized for 63-11205 from 0.20 cfs to 0.13 cfs accordingly, but the volume will be maintained (combined use limitation only on rate).

Right 63-28919 was filed as a beneficial use claim for domestic use of ground water in the SRBA. The right as decreed authorizes diversion at 0.04 cfs with a volume limitation condition stating diversion shall not exceed 13,000 gpd. The applicant proposes changing the nature of use for this right from domestic to commercial use. The historic extent of beneficial use for a right cannot be enlarged with a nature of use change. Considering the right is an exempt domestic use defined by Idaho Code § 42-111(a), there is limited information available on the historic extent of beneficial use. The applicant was unable to provide such information. In anticipation of this fact, the applicant met with Department staff (management) to discuss the possibility of the proposed nature of use change. Department staff stated if historic beneficial use information is not available, changing the right to a commercial use meeting the definition of domestic under Idaho Code § 42-111(b) is not likely to enlarge the use. The transfer application was filed as such.

Local Public Interest: The rights provide water for an existing winery that generates revenue for the local economy. Authorizing the right holder to fully utilize their rights via an existing system of three wells with one proposed well for this facility serves the local public interest. The transfer application was published in the local newspaper and no protests were received.

Beneficial Use/Conservation of Water Resources: The application proposes beneficial use consistent with conservation of water resources in Idaho.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Discussion

Data entry affected the water right records of 63-11205 and 63-28919. Right 63-28919 was decreed by the SRBA court in 2000, the results of which were migrated prior to transfer data entry. Right 63-11205 was developed after 1987 and thus not subject to the SRBA.

Rights 63-11205 and 63-28919 are the only rights with authorized PODs in the 40 acre-tract of the existing and proposed POD wells. Application for permit 63-34179 proposes additional use from the same system for additional commercial use at the facility. There are no other rights for commercial use at this facility. No changes to the POU are proposed. As discussed in the enlargement section, right 63-11205 has a combined rate limitation with right 63-8469 (different POD/system) that will be removed thru this transfer process.

The well historically used (at licensing) as the POD for 63-11205 was changed to the well drilled in 1997 (D0000171) via approval of Transfer No. 5107. The drilling permit fee of \$200 was received at that time (receipt # C039582). Another well was drilled in 2000 (D0015085) as a domestic well under a \$75.00 drilling permit fee. The Department should collect \$125.00 for the drilling permit upgrade fee during processing of these applications. The "1918 well" was drilled in 1918 [or perhaps 1968 = only other well log of record in the SW SE Sec 23 T3N R4W] prior to 1987 when well drilling permit fees were established.

Summary

Assuming other information does not contradict the above analysis, the application can be approved as reflected by the draft approval.

80585**
MTBR&F File No. 26039.0000

Dear Mr. Miller:

Thank you for the Department's expedited review of the above-mentioned Application for Permit and Transfer Application. With the protest period expired and there being no protests, we request that the Department issue final approval for the applications in a similar expedited manner, to allow the closing on the property to occur on schedule.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

NOTICE OF PROPOSED CHANGE OF WATER RIGHT

TRANSFER NO. 80585

DANDREW WINE LLC, 1910 FAIRVIEW AVE EAST SUITE 400, SEATTLE, WA 98102: has filed Application No. 80585 for changes to the following water rights within CANYON County (s): Right No(s). 63-11205, 63-28919; to see a full description of these rights and the proposed transfer, please see www.idwr.idaho.gov/apps/wr/QueryNewTransfers/QueryNewTransfer.aspx. This transfer proposes combining three existing wells, and adding a new well to reflect all four wells as an integrated system with a total diversion rate of 0.17 cfs. All four wells are/will be at the Ste Chapelle Winery. The transfer also proposes a change in nature of use for one of the rights to be listed as fully commercial use upon transfer approval.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at 208-334-2190; or for a full description of the right(s) or proposed transfer (s) please see

www.idwr.idaho.gov/WaterManagement/WaterRights.

Protests may be submitted based on the criteria of Idaho Code §§ 42-203A and 42-222. Any protest against the approval of the application(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 3/21/2016. The protestant must also send a copy of the protest to the applicant.

GARY SPACKMAN, Director
