James,

Ok, I spoke with Shelley just now, because he was just now able to find some free time to come see me about this one.

Please tell Joanie not to send the file. I will process their proof statement by viewing the documents provided in Docs. Once I have processed proof and sent the permit holder an acknowledgment letter, I will forward via snail mail the original proof statement and acknowledgment letter that will need to be placed into the physical WR file.

Darla,

This is a case where the proposed project had already been developed. In other words, the permit was issued to cover an existing system. Pacificorp filed proof of beneficial use immediately after the permit was issued. So, the water right file is still in our Eastern office. We already have sufficient evidence to complete a beneficial use field exam and issue a license. Blake has already started working on the file. My guess is that we will issue the license by the end of the month. Should we keep the file in our office until we issue the license?

Darla, I am out of the office until May 11th. I have informed Jonie Barg on how to send you the file. The barcode entry will not be done. I am the only one in Eastern that uses the barcode system, so I told Jonie to send it to your attention. Can enter it into the barcode system for me, please?

Thank you,

Good afternoon,

Yesterday I received a Proof of Beneficial Use statement from PacifiCorp for permit #25-14431. Please add the file into the barcode system, then forward the file to me for proof processing as soon as it is possible to. In the meantime I will pin the proof statement up on my soft wall until I receive the file.

Thanks.
Darla ☺
