STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

1. Name of applicant(s) Dan Terry Phone 530-306-9301
Name connector (check one) ☐ and ☐ or ☐ and/or
Mailing address 4827 Gleason McAbee Falls Road City Priest River
State ID Zip 83856 Email dan.terry1@gmail.com

2. Source of water supply Spring which is a tributary of sinks
3. Location of point(s) of diversion:

TWP	RGE	SEC	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
58N	4W	8		SW	NE	SE	Bonner	Spring	
					SW	NE			

4. Water will be used for the following purposes:
Amount 0.12 cfs for Hydroelectric purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

5. Total quantity to be appropriated is (a) 0.12 cubic feet per second (cfs) and/or (b) _____ acre feet per year (af).

6. Proposed diverting works:

- Describe type and size of devices used to divert water from the source. Covered concrete spring box adjacent to spring with 2" outlet (panstock) pipe to POU.
- Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No
- Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
- Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No
- If well is already drilled, when? _____; drilling firm _____; well was drilled for (well owner) _____; Drilling Permit No. _____.

7. Description of proposed uses (if irrigation only, go to item 8):

- Hydropower; show total feet of head and proposed capacity in kW. 40' Head, 1.0 kW/Hour Maximum
- Stockwatering; list number and kind of livestock. _____
- Municipal; complete and attach the Municipal Water Right Application Checklist.
- Domestic; show number of households _____
- Other; describe fully. _____

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
58N	4W	8			P														

Total number of acres to be irrigated: _____

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?

A a statutory claim was filed by Lynch 97-4242 for stockwater from a spring on this property.

10. a. Who owns the property at the point of diversion? Applicant
- b. Who owns the land to be irrigated or place of use? Applicant
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing:

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

Collect water from the spring using a covered concrete spring box (POD) with 2" outlet piping (penstock) feeding a 3,000 gallon storage tank. 2" Penstock from storage tank will feed a hydroelectric turbine (similar to No Outage.com LLC, Model LVB00/1500) near the dwelling (POU). The tailwater will be surface discharged to the pond. Spring flow was calculated by taking measurements of existing conditions on 08/22/15.

12. Time required for completion of works and application of water to proposed beneficial use is 3 years (minimum 1 year).

13. MAP OF PROPOSED PROJECT REQUIRED - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

AFFIDAVIT FOR WATER RIGHTS TO BE USED FOR POWER PURPOSES

A. Establishment of Residency or Qualification to do Business in Idaho (complete either 1 or 2)

1. Individual Applicant:

I, Dan Terry of Priest River,
(name) (city)
County of Bonner, State of Idaho, being duly sworn, do hereby certify that I am a
bona fide resident of the State of Idaho.

2. Corporation or Partnership (complete part 2a or 2b):

a) ☐ Attached is a *Certificate of Existence* or a *Certificate of Authorization* or other documentation issued by the
Idaho Secretary of State confirming _____'s authority to transact
(name of corporation or partnership)
business in Idaho.

or

b) I, _____ of _____, County
(name) (city)
of _____, State of _____, being duly sworn, depose
and say, that I am the _____ for _____;
(title) (name of corporation or partnership)
that as such I have legal authority to sign this affidavit on behalf of _____
(name of corporation or partnership)
and that _____ is a corporation or partnership qualified to do business in
(name of corporation or partnership)
the State of Idaho under the laws of the State of Idaho.

B. Ownership of Facilities

The hydropower facility to be developed pursuant to the attached Application for Permit (check one):

- ☒ Will not utilize existing man-made irrigation facilities such as a dam or a canal.
☐ Will utilize existing man-made irrigation facilities such as a dam or a canal, and permission of the owner is documented in an affidavit attached hereto.
☐ Will utilize existing man-made irrigation facilities such as a dam or a canal, and the owner is the signee of this affidavit.

Appendix – A
STREAM FLOW & POND CALCULATIONS

Name of Applicant: Dan Terry

Mailing Address: 4827 Gleason McAbee Falls Road, Priest River, ID 83856

Source of Water Supply: Priest River & Spring

Township: 58N, Range: 4W, Section: 8

Water Flow of Priest River (Measurements Taken 08/22/2015, Low Flow):

Average Stream Width = 1,248 inches

Average Stream Depth = 14 inches

$1,248'' \times 14'' = 17,472$ square inches (si)

$17,472 \text{ si} / 144 \text{ (si)} = 121.3$ square feet (sf)

Visual flow rate = 2.0 feet per second (fps)

$121.3 \text{ sf} \times 2.0 \text{ fps} = 242.6$ cubic feet per second (cfs)

Stream bed friction correction factor of 0.85

$242.6 \text{ cfs} \times 0.85 = 206.21 \text{ cfs}$

Water Flow of Spring (Measurements Taken 08/22/2015, Low Flow):

Spring Flow at Summer Low Flow = 0.16 cfs

Estimated High Spring Flow = 0.35 cfs

Penstock to Pond from Pump:

3" Diameter PVC Pipe from 5 hp Pump with 20 Feet Head = 0.4 cfs or 180 gallons per minute

Pond Capacity:

Pond 1 = 200' wide, 250' long, 12' average depth = 600,000 cf

Pond 2 = 250' wide, 1,050' long, 12' average depth = 3,150,000 cf

24" Pipe at 250' long = 785 cf

Total Pond Capacity = 3,750,785 cf or 86.11 af

Stockwater:

30 Mixed Head Cattle x 12 GPD x 365 Days / 131,400 GAL/AF = 3.0 AF

Irrigation:

30 Acres x 3.0 Acre Feet = 90.0 AF

Appendix – A
SPRING FLOW & HYDROELECTRIC CALCULATIONS

Name of Applicant: Dan Terry

Mailing Address: 4827 Gleason McAbee Falls Road, Priest River, ID 83856

Source of Water Supply: Spring

Township: 58N, Range: 4W, Section: 8

Water Flow of Spring (Measurements Taken 08/22/2015, Low Flow):

Spring Flow at Summer Low Flow = 0.16 cfs

Estimated High Spring Flow = 0.35 cfs

Hydroelectric Calculations:

2" pipe @ 40 feet of head

1' of head = 0.4335 pounds per square inch (psi)

40' head x 0.4335 psi = 17.34 psi

Slope of 40 feet (rise) / 400 feet (run) = 0.1 feet (10.0%)

2" PVC pipe (100% full) @ 10.0% slope = 0.12 cfs or 53.86 gallons per minute (gpm)

2" PVC pipe with flow of 0.12 cfs (17.34 psi at 53.86 gpm) = maximum 1.0 kW power generation per hour or 36 kW per day

Prepared By:

Typical electrical system configuration

click thumbnail image above to enlarge

Hydroelectric Turbine Generator **medium & high head** **non-adjustable permanent magnet alternator** **with Turgo or Pelton wheel & up to 4 nozzles** **12/24/48/120Vdc**

This is HI-Power's latest and most efficient low-voltage brushless permanent magnet generator. The LV800/1500 hydroelectric battery charger uses a Hartvigsen Turgo stainless steel 4" wheel and a special sealed permanent magnet alternator on an anodized square aluminum housing. (Also available with Harris Pelton wheel by request in round housing. But the Pelton is slightly less efficient.) Housing is 12" square and fits into a 10.25" square opening. All hardware is stainless steel and the nozzles are brass. This model is available with 1, 2, 3 or 4 nozzles installed at the factory. Nozzle(s) can be up to 5/8 inch in diameter. A 3/4" NPT male brass tube connection sticks through the housing for installer provided penstock and valve connections. Three feet of 1" flexible hose is provided for each nozzle. The rectifier is mounted and water cooled. Includes induction dc ammeter with instructions is provided to assist with connections.

These units come standard with a permanent magnet brushless alternator with no

adjustability. This permanent magnet (P.M.) alternator is more efficient than the old Motorcraft alternator, produces less heat, and therefore lasts longer. Unit can be ordered for common 12Vdc, 24Vdc, 48Vdc and special 120Vdc for transmitting power long distances. An MPPT charge controller such as the Outback Power MX-60 can be used to step down the 120Vdc to charge a 12-48Vdc battery bank.

The alternating current from the alternator goes through the water-cooled rectifier to produce the DC output. The unit comes complete with an induction ammeter. We recommend fusing the wire near the batteries.

Factory warranty on the unit for 2 years.

The alternator has two sealed 6203 bearings that should be changed every 4 - 10 years, depending on use and rpm. These are standard bearing from most auto parts stores for around \$15 each. Replacement requires a 3-prong puller. The turbine can also be sent back to the manufacturer for bearing replacement at a very nominal cost.

Maximum achievable power output is approximately 1500 watts. Pressure and flow combinations resulting in a power higher than this may overheat the alternator and cause the permanent magnets to lose magnetism. Made in USA 

OUTPUT IN WATTS & FLOW IN GPM PER NOZZLE EFFICIENCY IN %

versus nozzle size and head pressure

Output listed below is for similar unit with stainless steel Turgo runner and 3/4" nozzle holder.

NOTE: The grayed-out numbers below indicate that the low head LV400/800 will have higher output.

NOTE: The grayed-out numbers above indicate that the low head LV400/800 will have higher output.										

Please tell us your head, flow, pipe size and length, and battery voltage when ordering using the drop-down menus below.

DC cable length and voltage drop must be evaluated carefully when laying out system. Click here for our [simple voltage drop calculator](#). If the turbine will be located far from the battery bank, voltage drop and wire cost can be reduced by using the 120Vdc generator with a step-down controller (such as the [FM60](#) or [FM80](#)) at the battery bank.

Customers who purchased this product also ordered: (click underlined words to see product pages)

EXHIBIT A

Government Lot 2, EXCEPT the North 990 feet thereof, in Section 9, Township 58 North, Range 4 West, Boise Meridian, Bonner County, Idaho.

Excepting therefrom public road right of way.

AND

Government Lot 2; the Southwest Quarter of the Northeast Quarter; the South 330 feet of the Northwest Quarter of the Northeast Quarter; and the South 330 feet of Government Lot 1 in Section 8, Township 58 North, Range 4 West, Boise Meridian, Bonner County, Idaho.

AND

The East half of the Northwest Quarter of the Northwest Quarter of the Southeast Quarter in Section 8, Township 58 North, Range 4 West, Boise Meridian, Bonner County, Idaho.

AND

A tract of land being a portion of the West Half of the Northeast Quarter of the Northwest Quarter of the Southeast Quarter of Section 8, Township 58 North, Range 4 West, Boise Meridian, Bonner County, Idaho, more particularly described as follows:

Beginning at the Northeast corner of said W1/2 NE1/4 NW1/4 SE1/4; thence, Southerly, along the East line of said W1/2 NE1/4 NW1/4 SE1/4, 198 feet; thence Westerly, parallel with the North line of said W1/2 NE1/4 NW1/4 SE1/4, 69.00 feet; thence Southerly, parallel with the East line of said W1/2 NE1/4 NW1/4 SE1/4, to its intersection with the centerline of an existing road (Book 53 of Deeds, Page 23, Records No. 82248); thence Westerly, along the centerline of said road, to its intersection with the West line of said W1/2 SE1/4 NW1/4 SE1/4; thence Northerly, along said West line to the Northwest corner of said W1/2 NE1/4 NW1/4 SE1/4; thence East, along the North line of said W1/2 NE1/4 NW1/4 SE1/4, to the point of beginning.

EXCEPT a tract of land being a portion of the West Half of the Northeast Quarter of the Northwest Quarter of the Southeast Quarter (W1/2 NE1/4 NW1/4 SE1/4) of Section 8, Township 58 North, Range 4 West, B.M., Bonner County, Idaho, more particularly described as follows:

The West Half of the Northeast Quarter of the Northwest Quarter of the Southeast Quarter (W1/2 NE1/4 NW1/4 SE1/4) of said Section 8,

LESS the following described parcel:

Beginning at the Northeast corner of said W1/2 NE1/4 NW1/4 SE1/4; thence Southerly, along the East line of said W1/2 NE1/4 NW1/4 SE1/4, 198 feet; thence Westerly, parallel with the North line of said W1/2 NE1/4 NW1/4 SE1/4, 69.00 feet; thence Southerly, parallel with the East line of said W1/2 NE1/4 NW1/4 SE1/4, 90 feet, more or less, to its intersection with the Southern edge of an existing access road, thence Westerly, along said Southern edge of existing access road, 268', more or less, to its intersection with West line of said S1/2 NE1/4 NW1/4 SE1/4; thence Northerly, along said West line to the Northwest corner of said W1/2 NE1/4 NW1/4 SE1/4; thence East, along the North line of said W1/2 NE1/4 NW 1/4 SE 1/4, to the point of beginning.

Hi Dianne. I apologize that this did not run correctly the first time. Here is a proof for the new ad which will run in the Daily Bee on the 2nd and 9th. There will be no charge for this. Please let me know if you need anything else!

On Tue, May 31, 2016 at 12:59 PM, Ball, Dianne <Dianne.Ball@idwr.idaho.gov> wrote:

Good afternoon, Holly:

Please re-publish the enclosed legal notice in the Bonner County Daily Bee, on the dates indicated, June 2 and 9, 2016 (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

The first re-publishing did not have the correct protest deadline date as submitted. Please note changes in this attached legal notice, to the publication dates, the protest deadline, and the website. (We had a recent website update.)

This should be very close to press ready – maybe copy and paste, for 2-column, 8pt, Century Old Style font.

Please note the area(s) under **USE** containing dates and water amounts that are offset and lined up. Our legal should appear in this format.

Please also send a proof/preview copy for my review before this actually goes to press.

An affidavit of publication must be submitted to the Department. Please send the affidavit to this office before 6/20/2016. Your cooperation will be greatly appreciated.

Thanks for all your help in this process.

If you have any questions, please contact Morgan Case, our Northern Regional Manager, at 208-762-2800, as early as possible.

Application For Permit No. 97-7531

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

Due to another publication error at the Bonner County Daily Bee, the legal notice concerning this application must be re-advertised. We apologize for the delay, but we are required to re-publish by Idaho Code § 42-203A.

A legal notice of the application has been prepared and is scheduled for publication in the BONNER COUNTY DAILY BEE, on 6/2/2016 and 6/9/2016. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Morgan Case
Northern Regional Manager

Application For Permit No. 97-7531

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

Due to a publication error at the Bonner County Daily Bee, the legal notice concerning this application must be re-advertised.

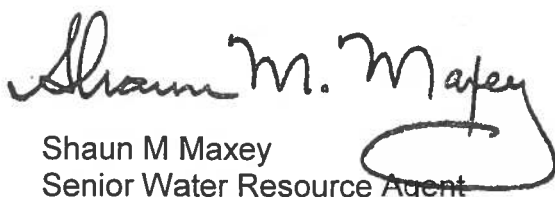

A legal notice of the application has been prepared and is scheduled for publication in the BONNER COUNTY DAILY BEE on 5/19/2016 and 5/26/2016. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Shaun M Maxey

Good afternoon, Melinda

Please publish the enclosed legal notice on the dates indicated, April 7 and 14, 2016, (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

This legal is a little longer than some , but it still should be very close to press ready – for 2-column, 8pt, Century Old Style font.

Please note the area(s) under **USE** containing dates and water amounts that are offset and lined up. Our legal should appear in this format.

Please also send a proof/preview copy for my review before this actually goes to press.

If you have any questions, please contact me as early as possible.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 4/25/2016. Your cooperation is greatly appreciated.

Melinda, it's truly a pleasure working with you, and thanks for all your help in making our legals appear as submitted.

Dear Kiira,

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced water right applications. A copy of each of the applications is attached for your reference.

This is being prepared for publication in the Bonner County Daily Bee on April 7 and 14, 2016 with April 25, 2016 as final date that protests can be received in our office.

Your prompt response to this request is appreciated. If your agency desires to formally protest the approval of either of these applications, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication.

Please contact Shaun Maxey regarding Application number 97-7531, and Adam Frederick regarding Application number 97-7534 if you have any questions regarding these applications.

Brain:

Attached per your request are e-mail copies of the Permit Applications that require correction. Please look at the attachments with 'DRAFT' in the title. There is a red flag on the second page that shows where Mr. Terry has to re-sign each of the Applications. He also must initial the changes shown on the first page of each Application for # 3 that show the correct legal description for the Spring..

The other copy of each Application is the one that Mr. Terry must sign and initial. The signature and initials on the first page should be done in colored ink (other than black ink) and mailed via U.S. mail to me at IDWR Northern Region. An e-mail attachment is not sufficient.

Thanks,

Shaun

Hello Mr. Maxey,

Since no current plans are in place for either Mr. Terry or I to be in the CDA area in the near future, please email the application forms to me for correction. Please let me know how the legal description for the Spring should be indicated on the applications. Please mail the applications to:

Brian Domke
PO Box 711
Sagle, ID 83860

Thank you,
Brian

Brian:

Thanks for the corrections that have been made to the Applications for Dan Terry.

I'm reviewing the corrected Applications for Terry that arrived this morning. Both of the Applications still have an error on the Legal description for the Spring.

I will have to send these back to you unless your or Mr. Terry happens to be in Coeur d'Alene and can stop by the IDWR office. A simple pen and ink correction is required for each Application.

Please get back to me on whether the Applications should be mailed to you or held here for correction.

Mr. Domke:

Bonner County has apparently changed the tax parcel number on the Terry property to RP58N04W080503A. IDWR's mapping system has an older parcel number (RP58N04W080502A).

Please use this new number if it is shown on any of the maps that accompany the Sunshine Meadows Applications.

Mr. Domke:

I have reviewed the letter I sent to Mr. Terry dated December 11' 2015 and your e-mail, shown below.

Steps 2, 3, and 4 you outlined in your e-mail for Application 80556 are correct. I am unable to confirm that the legal description you specified in Step 1 is correct. The small black and white photocopied map that is provided with this Application doesn't allow me to determine the correct Quarter Quarter for one point of Diversion (Unnamed Stream) and the legal description to the 10 acre level for the spring (QQ, QQ, QQ).

Steps 3 and 4 for Application 80561 are correct. The same problems with a small , black and white photocopied map exists for this Application.

I suggest you give me call when you have the detailed color maps that I sent to Mt. terry in front of you. I will be out of the office this coming Monday.

Subject: Re: Sunshine Meadows LLC Water Rights Applications

Hello Mr. Maxey,

In response to your recent letter, I was asked by the representative for Sunshine Meadows LLC, Mr. Dan Terry, to confirm the additional information and corrections that need to be made to the two water rights applications (80556 & 80561) in order for them to be ready to submit back to the IDWR. Please confirm if our understanding of the revisions and additional information that are needed as outlined below is correct.

Water Rights Application for Hydroelectric No. 80556:

1. Modify application page 1, item 3, location of POD for Spring/Unnamed Stream to read "T58N R04W S8 SW NE SE."
2. Sign the Affidavit.

3. Include a copy of the Sunshine Meadows LLC Certificate of Organization issued by the Idaho Secretary of State.
4. Include a copy of the deed for the property showing Sunshine Meadows LLC as the current owner.

Water Rights Application for Pond No. 80561:

1. Modify application page 1, item 3, location of POD for Spring to read "T58N R04W S8 SW NE SE."
2. Modify application page 1, item 3, location of POD for Priest River to read "T58N R04W S8 SE NE."
3. Include a copy of the Sunshine Meadows LLC Certificate of Organization issued by the Idaho Secretary of State.
4. Include a copy of the deed for the property showing Sunshine Meadows LLC as the current owner.

Thank you for your assistance.

Best regards,
Brian

Mr: Domke:

I have been unable to reach you via telephone.

The two Water Right Permit Applications that we received for Sunshine Meadows LLC on December 3, 2015 will be returned.

The Power Application has an Affidavit that has not been completed and signed by the Applicant. This Application also has a map showing the Spring Point of Diversion(POD) in a different legal description than that shown on page 1 of the Application.

The Storage Application has the same problem as the Power Application with the legal description.

Please contact me concerning what address IDWR should use to return the Applications for correction.
