Good Morning Danie,

They don't have hydrants. They use the domestic system to fill water trucks for fire protection and hoses/sprinklers off the domestic system.

Good Afternoon Lori,

I have a quick question for you regarding the Application for Permit you submitted on behalf of Mountain View Water and Road Assn, Inc. They are proposing 0.25 cfs for fire protection. Could you please confirm that this use will be within the subdivision? Would you also please describe the system that will protect against the fire? Is it the same pressurized system used for the domestic? Will there be hydrants?

Thanks very much!
