STATE OF IDAHO

DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

Ident. No. 63-34148

1. Name of applicant(s) Diamond S Farms LLC/ Mike Skogsberg Phone 208-989-3990
 Name connector (check one): ☐ and ☐ or ☐ and/or
 Mailing address 23460 Stafford Rd City Caldwell
 State ID Zip 83607 Email skogsbergmike@gmail.com

2. Source of water supply Unnamed drain which is a tributary of Boise River

3. Location of point(s) of diversion:

TWP	RGE	SEC	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
04N	04W	1			SW	SE	Canyon	Unnamed Drain	
04N	04W	1			SE	SE	Canyon	Unnamed Drain	

4. Water will be used for the following purposes:

Amount 68 cfs for Wildlife purposes from 11/16 to 2/29 (both dates inclusive)
 (cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)

5. Total quantity to be appropriated is (a) 68 i cubic feet per second (cfs) and/or (b) _____ acre feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. gravity flow through field back to drain.

b. Height of storage dam N/A feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☒ No

c. Proposed well diameter is N/A inches; proposed depth of well is _____ feet.

d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No

e. If well is already drilled, when? N/A; drilling firm _____;
 well was drilled for (well owner) _____; Drilling Permit No. _____.

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. _____

b. Stockwatering; list number and kind of livestock. _____

c. Municipal; complete and attach the Municipal Water Right Application Checklist.

d. Domestic; show number of households _____

e. Other; describe fully. Wildlife; habitat for birds

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below.
See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
4N	4W	1									W			W			W		
4N	4W	1									W			W					
											GL2			GL1					

Total number of acres to be irrigated: _____

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?
No other wildlife rights

10. a. Who owns the property at the point of diversion? Applicant
- b. Who owns the land to be irrigated or place of use? Applicant
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing:

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

Sources will be from different drains but run through property. Used during the non-irrigation season for waterfowl habitat.

12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

RE: Application for Permit No. 78-12438 , 63-34148 & 65-23599

Dear Mr. Ward:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendation(s) from your agency regarding the above referenced water right application(s). Copy(s) of the application(s) are enclosed with this email for your reference. Please review the application(s), complete the enclosed recommendation form, and submit your reply, if any, to this office by the protest deadline of April 25, 2016.

If your agency desires to formally protest approval of this application, you may do so by filing a written protest along with a \$25.00 filing fee for each protested application by the protest deadline.

IDWR will assume your agency does not object to this application if a timely response is not received. Please contact me if you have any questions regarding the application. Thank you for your help.

Sincerely,

Rachel Neely

MEMORANDUM

TO: 63-34148 Diamond S Farms LLC/ Skogsberg File

FROM: Danie Merriman (Western)

DATE: March 15, 2016

RE : Phone conversation with Mike Skogsberg at 4:00 on 3/14/16 and general notes

Quantity clarification

On 1/26/16, I called Mr. Skogsberg regarding the quantity of water he was proposing to divert. Mr. Skogsberg had originally filed his application with me on an office day in September. We could not remember why we chose to apply for .68 cfs with the original application. I asked Mr. Skogsberg how much water he was planning on flowing out of the diversions and onto his field. He said he was not entirely sure because he has not measured it before, but thought that it was be approximately 50 inches, which translates to 1 cfs. This quantity of water would not be stopped or impounded, but rather, would flow through to the Boise River. Thus, he applied for a Wildlife use rather than Wildlife Storage.

The following information was acquired per a phone conversation on 3/14/16 with the applicant in regards to their application for permit.

1. POU shape and land ownership.

There are approximately 5.8 acres of land within the POU outlined in the application map that are owned by a separate entity, Triple Crown Dev LLC. I asked Mr. Skogsberg if he would like to get permission from Triple Crown to include them with the application or if he would like them removed from the shape. Mr. Skogsberg said they should be removed from POU shape. The database was updated.

2. Source drains.

I asked Mr. Skogsberg if the drains that he is proposing to pull water from are the same drain or if they are separate. Mr. Skogsberg informed me that the drains are separate at the described PODs. They eventually come together below the diversion points before flowing into the Boise River. A condition will be added to the Permit approval that explains that the PODs are coming from different drains.

Good Morning Mike,

I wanted to give you a heads up that your Application for Permit to Appropriate Water for irrigation was approved, signed, and mailed out yesterday. It should reach you sometime this week.

I also wanted to follow up regarding your Application for Permit for wildlife. We spoke at the end of January regarding the quantity of water to be appropriated as well as the interest of the Farmer's Co-Operative Ditch Company on the drain applied for. I received a letter in early February from Rod Nielsen stating they have no interest in your drain. I haven't, however, received your amended application requesting the higher rate of diversion for maximum development flexibility. I've attached a copy of your application to this email. Would you please amend section 4 and 5 on the application to read "1 cfs"? You can then scan and email or snail mail me the amended version in the next 30 days, and we can move forward with advertising your application.

Thank for your patience in this process! Please let me know if you have any questions.

Thanks!

MEMORANDUM

TO: 63-34148 Diamond S Farms LLC file

FROM: Danie Merriman (Western)

DATE: January 26, 2016

RE : Phone conversation with Mike Skogsberg on 1-26-16 at 8:30 am

The following information was acquired per a phone conversation with the applicant in regards to a letter sent to them on January 13, 2016.

1. *Quantity clarification. You application requests the diversion of 0.68 cfs, which equates to 34 inches of water. Based on our phone conversation on 1/7/16, you may actually use up to 50 inches of water, or 1.0 cfs. If you would like to apply for this full 50 inches, please amend section 4 and 5 of the enclosed form to read '1 cfs.' The increase in diversion rate would advance your priority date to the day when the amended application is received. If you believe 34 inches of water will be sufficient, there is no need to make any changes or to submit the amended form.*

Mr. Skogsberg is not completely sure how much water will be diverted, so he will apply for the higher rate for maximum flexibility. He will send in an amended application to the office.

2. *POD location. Are there any others who divert water from the two points of diversion during the off-irrigation season?*

Yes. His neighbor also diverts water from the ditch in the off-irrigation season, but lets it run onto different ground than this application describes.

IDWR must determine if the water you wish to appropriate is waste water available for appropriation or whether it is "live" water under control of an irrigation delivery organization to satisfy downstream users. The irrigation organizations in your area appear to be Farmers Cooperative Ditch Company and Siebenberg Cooperative Ditch Company Ltd .

Mr. Skogsberg says that the Siebenberg Cooperative Ditch Company does not regulate any of the ditches or the water in the area where he is applying. He sits on the board for the Farmers Cooperative Ditch Company and will have them send in a letter confirming the status of the ditch and wastewater.

Re: Application for Permit 63-34148

Dear Applicant:

You recently filed a water right application with the Idaho Department of Water Resources (IDWR) proposing to divert waste water for wildlife use. IDWR must determine if the water you wish to appropriate is waste water available for appropriation or whether it is "live" water under control of an irrigation delivery organization to satisfy downstream users. The irrigation organizations in your area appear to be Farmers Cooperative Ditch Company and Siebenberg Cooperative Ditch Company Ltd.

The waste water status in your area can be determined by providing written consent from the correct irrigation delivery organizations confirming if the water does nor does not remain under its control for other users. Also, please provide written confirmation of a right-of-way to use the waste ditch or waste drain if that conveyance is owned by the organization or by some other person or entity.

In addition to the written consent from the delivery organization, the Department requires clarification on another section of your application form.

1. Quantity clarification. Your application requests the diversion of 0.68 cfs, which equates to 34 inches of water. Based on our phone conversation on 1/7/16, you may actually use up to 50 inches of water, or 1.0 cfs. If you would like to apply for this full 50 inches, please amend section 4 and 5 of the enclosed form to read '1 cfs.' The increase in diversion rate would advance your priority date to the day when the amended application is received. If you believe 34 inches of water will be sufficient, there is no need to make any changes or to submit the amended form.
2. POD location. Are there any others who divert water from the two points of diversion during the off-irrigation season?

Please provide the requested information within sixty (60) days. You may request up to six months additional time if necessary. You may withdraw the application by returning the enclosed withdrawal form if you prefer. The application will be voided without a timely written response. Refunds are not issued for voided applications.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to these matters.

Sincerely,

Danie Merriman
Water Resource Agent
IDWR, Western Region
