Dear: Mr. Merritt,

This letter is generated in response to the protest of Transfer No. 80562 by BLM and agent Fredric Price.

I agree with the findings of the BLM and agent Fredric Price. The application did in fact miss identify on page 3 of part 1 of the application the place of use. The place of use of the irrigation water is not intended to change from the existing water right. The electronic file of the application in the IDWR system has the place of use listed correctly and the maps identify the locations correctly. I am submitting this revised page 3 of part 1 to rectify this error.

I have reached out to agent Fredric Price of the BLM and his recommendation was to submit this revision to IDWR so that they could approve or agree with this change in the application.

Sincerely,

A handwritten signature in black ink, appearing to read 'Matthew W. Thompson', with a long, sweeping horizontal line extending to the right.
