Mr. Zeutschel,

Thank you so much for your email. This is what I need to proceed with licensing your permit.

Due to the time limit set in the request for additional information letter, I was required to send out a "Notice of Intent to Void" letter as required by Idaho Code. I sent the Notices to the two addresses that I was able to find for you today March 11, 2016. **This email supplies all of the information needed to comply with the Notice of Intent Void letters you will be receiving, so please disregard the Notices that I sent out this morning dated March 11, 2016.** I have placed a copy of this email in your file, and I will contact you if anything further is needed.

Hopefully, I will complete the licensing process on your permit within the next week, so you should be notified within the next few weeks on your permit.

Thank you for submitting this information. If you have any questions, please don't hesitate to contact me.

Respectfully,

Daniel Nelson
Staff Hydrologist
Idaho Department of Water Resources
Telephone (208) 287-4856
Fax (208) 287-6700 (attn: Dan Nelson)

We leave for the winter months and just returned Sat. 3-5 in response to your letter our water pump is a submersible with a built in stainless steel mesh over the water inlet. It is installed at a depth of 3 feet below the water surface. Karen Zeutschel
