Conditions Applicable to All Leased Water Rights

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department, even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, nor does it improve the status of the right or accomplish the resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

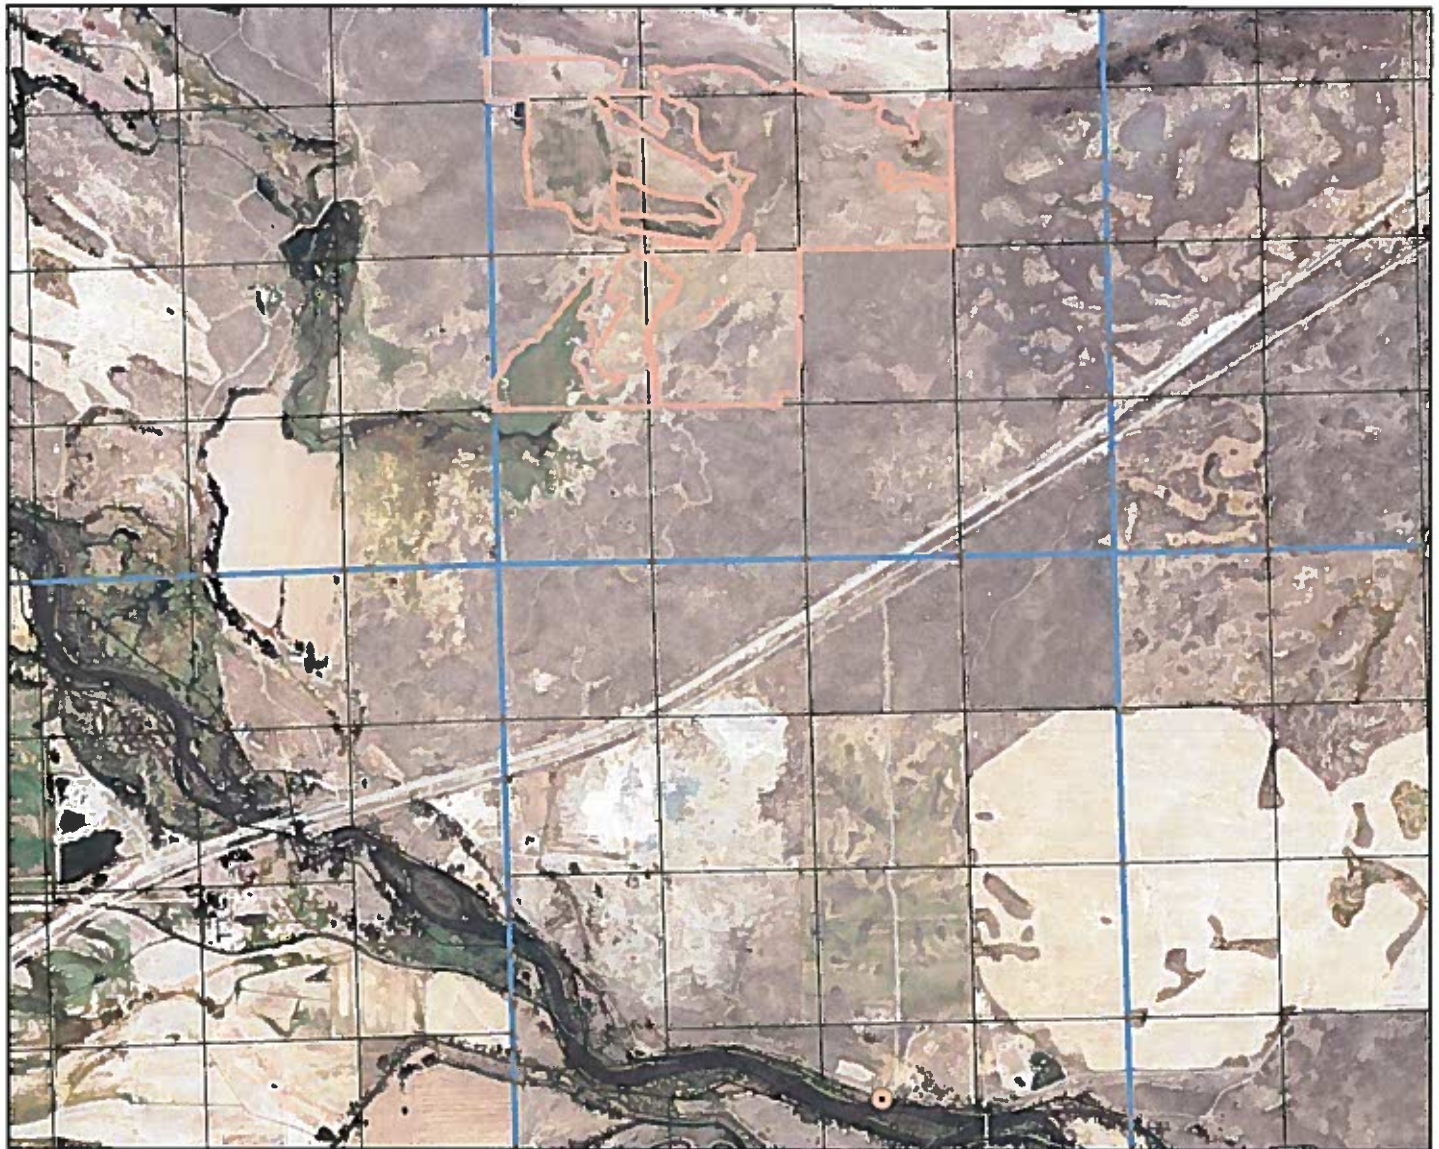

9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment after the following rental season.
11. The water rights leased to the bank are subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right is regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 01.
13. Right Nos. 21-72C and 21-13060 are limited to a total combined diversion rate of 3.2 cfs.

**RE: APPLICATION TO LEASE WATER RIGHTS 21-72C and 21-13060
TO THE WATER SUPPLY BANK**

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water rights to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The rights will automatically be released from the Bank on **December 31, 2020**, unless the rights are released earlier by the Board, or upon your request. To release the rights from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your rights may not be available for immediate release if they have been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact me at 287-4946.

RE: WATER SUPPLY BANK LEASE CONTRACT FOR WATER RIGHTS 21-72C and 21-13060

Dear Lessor:

Water rights 21-72C and 21-13060 were leased into the Water Supply Bank (Bank) as of November 18, 2015, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The rights will automatically be released from the Bank on **December 31, 2020**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

If you have questions regarding this matter, please contact me at 287-4946.

Sincerely,

 Michele Edl

Subject: Green Family Trust WSB lease 2016-2020

James, Lyle,

I have completed my review of the proposed 2016-2020 Water Supply Bank lease for the Green Family Trust. This lease is largely motivated by Fremont Madison Irrigation District's request to rent Water Supply Bank water for recharge. FMID provided a package of several lease proposals including this one. Of the proposed rights for lease, these two the only water rights which are held by individuals; not a canal company. (Cherie has the other proposed leases).

I have already reviewed FMID's rental proposal and believe that the WSB can process the rental request. So we need to get the leases processed.

I have attached a copy of my lease review memo and a PDF showing the lease POU, which is the entire POU for these stacked rights, and the ditch's POD.

When you get a minute, please let me know if you have any concerns about this rental.

Thanks.

MEMORANDUM

To: Right(s) 21-72C and 21-13060
From: Michele Edl
Date: March 8, 2016
Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE: An application to lease these rights was received on November 18, 2015 as part of a package of leases proposed by the Fremont-Madison Irrigation District (FMID).

This application proposes to lease the entirety of both rights to the Water Supply Bank for 2016 through 2020. The Green Family is being represented by Dale L. Swenson, executive director of the Fremont-Madison Irrigation District (FMID)

AUTHORITY TO FILE: The Green Family Trust is the right holder-of-record for the 2 rights proposed to be leased into the WSB.

Available Fremont County taxlot information shows the POU is property owned by the Green Family Trust. Mr. Ronald Bert Green signed the application. I requested and received documentation that Ron Green is a trustee of the Green Family Trust.

The POD (SpatialData 362572) for the McBee Ditch from the Falls River is located on property currently held by Sagebrush Properties. Mr. Swenson stated that a 1980's vintage easement exists for the headgate.

WATER RIGHT VALIDITY: Rights 21-72C and 21-13060 were decreed in the SRBA in 2008. A review of aerial photography shows solid evidence of irrigation in 2009, but in other years the aerial photography is not as convincing. The applications were received timely if protection from forfeiture is needed.

WR 21-72C has priority date of 6/1/1896. It is senior to most of the water rights held by Fremont Madison Irrigation District and would be delivered when FMID water might be out of priority. A query of 2009-2014 Water Rights Accounting Data for McBee Canal (station #13049008) shows that water was regularly delivered to the property. The max daily average rate for the query period was 3.53 cfs which exceeds the total of the combined rates for the two water rights.

INJURY TO OTHER WATER RIGHTS: No injury is apparent. Mr. Swenson stated that the ditch delivered water only to the applicant's property. And Water Rights Accounting staff confirmed that in 2015 the McBee ditch delivered water to the Green Family Trust property only. Neither water right shows a set-aside for conveyance loss in the ditch.

ENLARGEMENT OF USE: The two rights offered for lease are stacked onto the same 160.6 acre POU. In addition, the POU is entitled to 15 ac-ft of storage water from Island Park Reservoir which is delivered via the Fremont-Madison Irrigation Company system. According to the statement in the lease application, all water delivery to the property will cease beginning 2016.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The leases appear consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The lease right(s) are subject to Water District #01 and Water District #100. Comment will be solicited from the Watermasters and Eastern Region management personnel.

Michele,

Thanks for your diligent work on getting approvals for our applications and for the opportunity I had to talk to you by phone last week. Attached is the Certificate of Living Trust which I believe will help with the first bullet. Ron Green's phone number is 208-206-4582 and his email is greenr@byui.edu.

For the second bullet, Fremont County's land ownership map shows Sagebrush Properties is the owner of the land on which the head works of the McBee Ditch are located. However, the McBee Ditch has an easement for the head works and ditch that was established when the canal was built in the 1890's.

The third bullet, the two decreed water rights and the Fremont-Madison storage water are all delivered through the head works and ditch to the property owned by the Green Family Trust. The Green Family Trust is the only water user from the ditch.

Please let me know if you have other questions.

Thanks,
Dale

Subject: Green Family Trust water supply bank leases

Mr. Swensen,

I have been assigned to review and if possible process the lease-rental package that you submitted on behalf of Fremont-Madison Irrigation District and the Green Family Trust.

I have already reviewed the FMID rental proposal for recharge and although it is dependent on successful processing of many leases, I am recommending that that rental be processed. Now, I have been tasked with reviewing some of the lease applications. In particular, I have been asked to review the two leases of rights 21-72C and 21-13060 which are held by the Green Family Trust.

In my review I found that these lease applications are missing some information that will help with my recommendations.

- I need a little more information about the Trust, but I do not have contacts for any of the Green Family. The water rights and the POU property is owned by the Green Family Trust. The application was signed by you and Ronald Green but I have nothing which connects either of you to the Green Family Trust. Typically there is a trustee appointment document and I am hoping that you can provide that.
- The headgate of the McBee ditch appears to be located on land owned by Sagebrush Properties. Because IDWR does not always have good rectification of aerial photography layers with taxlot layers or with water right layers, would you please confirm or clarify ownership of the land at the headgate?
- Water Rights 21-72C, 21-13060 and the 15 AF of storage water from Island Park Reservoir all appear to have the same POU. But it's not clear that they all have the same POD from the Fall River. Do you know if the two

personal Green Family Trust water rights use the McBee headgate and the McBee ditch for delivery of their Fall River water?

Don't hesitate to call or email me for clarification.

Sincerely,

Michele Edl

Attachments: 2015 McBee Diversion.xlsx

Jean,
Here are the answers to your questions.

Does the Green Family have shares in FMID? Yes, they have 15 acre feet of Fremont-Madison Irrigation District storage water from Island Park Reservoir.

Have the shares been delivered and used? Yes. I attached a chart showing the total diversion of the McBee Canal for the 2015 irrigation year. The total diversion includes the water right diverted as natural flow as well as storage when the water right priority was off.

When was the last time the land associated with these right was irrigated? See the attached chart which I downloaded from the IDWR website.

Please let me know if you have further questions.
Thanks,
Dale Swensen
