Yes, that will work. Sorry about that. Yes all of the diverting works and system already exist. Thanks.

Hi Claudia,

I am processing the application you submitted for PacifiCorp's facility in Idaho Falls. Item #12 on the application asks for the time (1- 5 years) required for completion of works and application of water to put water to beneficial use. This question was answered with "N/A". I understand that the system has been developed and the time required really is not applicable. When we issue a permit we are required to set forth a date when beneficial use must be made. The time required usually is between 1-5 years. I assume 1 year development time for this application?

Thanks,
Blake
