Protest of water right transfer numbers 80644 and 80592

We are protesting these transfers for the following, but not limited to the reasons listed below:

#1 Concerns that Pratt Creek will be supplemented with Sandy Creek Slough water.

#2 The assistant water master, Phil Moulton has too much personal gain when monitoring water. Water Master Dave Antonelli is seldom there and does not answer phone calls or return phone calls when there is a concern or issue with Pratt Creek water.

#3 Need of more measuring devices to be installed so water can be monitored more closely.

#4 We have concerns that the springs will dry up that are supposed to feed the water rights.

This protest involves water rights 74-16041, 74-2158, 74-192, 74-468

Thank You,
