Good day once again, Sascha,

Idaho Department of Lands is requesting interagency billing, this time for a Statement of Completion for Beneficial Use. See Dan Brown's e-mail below, and his attached memo and Statement of Completion

The originals of the memo and Statement of Completion are in the mail but I thought maybe we could start the interagency billing process with this, if that's possible. I know it takes a while to process.

Amount to be billed is \$50.00.

Dan's memo has all the billing information for IDL, and I believe *our* PCA Code for Beneficial Use is 65104.

Please let me know if you can start the process with this or if you need the originals. Also, please let me know what the billing number will be and notify me when the funds arrive.

*Thanks very much for all your wonderful help.*

*Don't count the days, make the days count.*

*Dianne*

Our office previously used interagency billing for our water right permit application and would like to do the same for the Beneficial Use Form. Is it possible to handle the attached \$50 fee the same way or would you prefer another method? Thanks for the help and guidance.
