Attachments: DOC009.pdf

Good Morning Adam,

Sorry this took so long, it was hard to get Wayne to stop and communicate in regard to this.

Here are the answers to your questions: Water Source = Spring

Use=Fire protection storage & wildlife / No pumping for irrigation or live stock

Pond Dimensions = 25'x40'x10' (no change)

Attached is your map with the approx location of the pond located on our property. If you have any trouble viewing the map let me know and I can mail it to you. Thanks for your help with this!

Angie Zimmerman

I have attached a map of your property and need the following information:

The location of the pond

The source of the water (does it come from a spring, is it in a stream channel, did you dig down and water seeped in)

Those are the main 2 things I need marked on the map to get us started on the application. I have an email that says the pond dimensions are 25' x 40' x 10' deep. Are these still correct dimensions?

Something else to start thinking about is what will the water be used for? We can always put fire protection storage and wildlife storage on the application. Will you be pumping from the pond for irrigation or for stock water? We can discuss the uses after this initial email.

Subject: Your Water Resources Permit Application (pond) received 8/24/2015

Mrs. Zimmerman:

I was out of the office yesterday and did not see your two Applications for Permit till this morning. Please give me telephone call concerning the dimensions of the pond for the Pond Application.

The well Application is fine and will be data entered this morning.

Thanks,

Shaun Maxey

Subject: Zimmerman (Basin 95) pond calculations

Adam:

Wayne Zimmerman will be contacting you about the Zimmerman's pond. His wife; Angie; said the pond measures 25' x 40' x 10' average depth.

Mrs. Zimmerman's number is (208) 582.0275.

They have a separate application for a well that is fine. It has been data entered as 95-17064.
